Subject index*

A

Acids, fatty, and sudden death (Opie), 575 (Letter to Editor)
Reply (Misra), 575
Activation sequence, measured, in the human heart, simulation of (Solomon and Selvester), 518
Aerobic impairment, functional, in cardiovascular disease, maximal oxygen intake and nomographic assessment of (Bruce, Kusumi, and Hosmer), 546
Agents useful in hypertensive emergencies, hemodynamic comparison of (Bhatia and Frohlich), 367
A-H and H-V conduction defects, pseudo A-V block associated with (Eugster et al.), 789
Allografts, canine orthotopic heart, transvenous biopsy from (Caves et al.), 525
Analogue, electrical, clinical evidence of cardiac weakness and incoordination secured by simultaneous records of force BCG and carotid pulse derivative and interpreted by (Starr, Verdouw, and Noordergraaf), 341
Aneurysmectomy for recurrent ventricular tachyarrhythmias (Welch, Fontana, and Vasko), 685
Angina pectoris, medical management of. Medical treatment of angina pectoris IX. (Aronow), 275
treatment of VIII. Miscellaneous antianginal drugs (Aronow), 132
IX. Medical management of angina pectoris (Aronow), 275
mental mechanisms and the pain of (Lane), 563
Angiocardiographic aspects and a new classification of ventricular septal defect with aortic insufficiency (Tatsuno, Konno, and Sakakibara), 13
Announcements, 290, 434, 722
Antecubital vein approach for recording His bundle activity in man (Gallagher et al.), 199
Antianginal drugs, miscellaneous. Medical treatment of angina pectoris VIII (Aronow), 132
Aortic insufficiency, ventricular septal defect with. Angiocardiographic aspects and a new classification (Tatsuno, Konno, and Sakakibara), 13
Aortico-left ventricular tunnel. Clinical and pathologic review of this uncommon entity (Pérez-Martínez et al.), 237
Aortocoronary bypass surgery, coronary arteriovenous fistula complicating (Tabrah, Aintablian, and Hamby), 534
Aortopulmonary shunts, validation in normal dogs, and in dogs with: quantification of pulmonary blood flow by a radioisotope technique (Silove et al.), 777
Arbovirus heart disease: myocarditis and cardiomyopathy following dengue and chikungunya fever—a follow-up study (Obeyesekere and Hermon), 186
Architecture of the coronary arteries, spatial dynamic, interesting peculiarities of (Burch and Giles), 140 (Annot.)
Arrhythmias, cardiac, development of in spontaneous breathing vs. artificially respired dogs. Digitalis toxicity (Stickney and Meyers), 501
Arterial and urinary catecholamine levels, blood pressure crisis following withdrawal of clonidine (Catapres, Catapresan), with special reference to and suggestions for acute management (Hansson et al.), 605
hypertension, systemic, vascular reactivity in (Mendlowitz), 252
system, use of heart slowdown to evidence mechanical resonance oscillations of the (Saumont et al.), 665
Arteriovenous fistulas, coronary, complicating aortocoronary bypass surgery (Tabrah, Aintablian, and Hamby), 534
intrahepatic, hyperdynamic circulatory state due to Osler-Weber-Rendu disease with (Burckhardt et al.), 797
Arteritis, giant cell—an unholy trinity (Hall), 835 (Annot.)
Artery(ies), coronary, experimental occlusion of, changes in bradykinin level in coronary sinus blood after (Kimura et al.), 635
interesting peculiarities of the spatial dynamic architecture of (Burch and Giles), 140 (Annot.)
disease, coronary, effects of pacing on oxygen hemoglobin dissociation and oxygen carrying capacity in patients suspected of (Colvard and Longmuir), 662
single vessel coronary, clinical and hemodynamic aspects of (Hamby, Gupta, and Young), 458
great, corrected transposition of, two types of ventricular septal defect in: reference to surgical approaches (Okamura and Konno), 483
visualization, coronary, temporary repolarization abnormalities during (Maranhao et al.), 138 (Annot.)
Arvin therapy in experimental pulmonary embolism (Sharma et al.), 72
Atherosclerosis, coronary, control of hyperlipidemia in treatment and prevention of (Kayden), 422
Atrial dissociation (Sivertssen and Jörgensen), 103 (Perosio, Suárez, and Llera), 401
ectopic tachycardia in man, electrophysiologic demonstration of (Goldreyer, Gallagher, and Damato), 205
electrode, method of permanent transvenous implantation of an (Zucker, Parsonnet, and Gilbert), 195
premature depolarization in man, early, atrial rhythms in response to (Paulay, Varghese, and Damato), 323
rhythms in response to an early atrial premature depolarization in man (Paulay, Varghese, and Damato), 323

*January, pp. 1-146; February, pp. 147-290; March, pp. 291-434; April, pp. 435-578; May, pp. 579-722; June, pp. 723-866.

Atrial—Cont'd
septal defect, iatrogenic (Ibarra-Pérez), 842 (Letter to Editor)
Reply (Timmis), 842
in infants, symptomatic (Dimich, Steinfeld, and Park), 601
in middle age, management of (Robb), 837 (Annot.)
sinus venosus (Davia, Cheitlin, and Bedynek), 177
Atrium and A-V conducting system, refractory period of, influence of heart rate on (Cagin et al.), 358
pulmonary venous and pulmonary veins, catheterization of following Mustard's operation, techniques of (Berman), 94
Atrioventricular (A-V) block, pseudo, associated with A-H and H-V conduction defects (Eugster et al.), 789
conducting system and atrium, refractory period of, influence of heart rate on (Cagin et al.), 358
conduction in man, gap in: types I and II (Gallagher et al.), 78
system in heart block, the vasculature of (Kennel et al.), 593

B

Bacterial endocarditis presenting as complete heart block with paradoxical (left-to-right) pulmonary emboli (Katz, Cooper, and Frieden), 108
BCG, force, and carotid pulse derivative, clinical evidence of cardiac weakness and incoordination secured by simultaneous records of and interpreted by an electrical analogue (Starr, Verdouw, and Noordergraaf), 341
Beats, premature ventricular (Mautner and Girotti), 389
Beta-adrenergic blockade with propranolol in the unanesthetized primate, regional hemodynamic effects of (Nies, Evans, and Shand), 97
Bilateral bundle branch block and myocardial infarction (Riley), 144 (Letter to Editor)
Reply (Lichstein and Fenig), 144
Biochemical and electrocardiographic changes, quantitative correlation of plasma and myocardial quinidine concentrations with (Cho), 648
Biopsy, percutaneous myocardial and pericardial with the Menghini needle (Shugoll), 35
transvenous, from canine orthotopic heart allografts (Caves et al.), 525
Block, bilateral bundle branch, and myocardial infarction (Riley), 144 (Letter to Editor)
Reply (Lichstein and Fenig), 144
branch, intermittent left bundle. Study of the effects of left bundle branch block on the ECG patterns of myocardial infarction and ischemia (Luy, Bahl, and Massie), 332
bundle branch, with slowing of normal heart rate, disappearance of (Cohen and Voukydis), 727
complete heart, bacterial endocarditis presenting as with paradoxical (left-to-right) pulmonary emboli (Katz, Cooper, and Frieden), 108
in acute myocardial infarction: drug therapy (Christiansen, Haghfelt, and Amtorp), 162
heart, the vasculature of the atrioventricular conduction system in (Kennel et al.), 593
Block—Cont'd
left bundle branch, effects of on ECG patterns of myocardial infarction and ischemia. Intermittent left bundle branch block (Luy, Bahl, and Massie), 332
pseudo A-V, associated with A-H and H-V conduction defects (Eugster et al.), 789
Blockade, beta-adrenergic with propranolol in the unanesthetized primate, regional hemodynamic effects of (Nies, Evans, and Shand), 97
Blood, coronary sinus, changes in bradykinin level in after the experimental occlusion of a coronary artery (Kimura et al.), 635
flow, pulmonary, quantification of by a radioisotope technique: validation in normal dogs, and in dogs with aortopulmonary shunts (Silove et al.), 777
regional myocardial, in anesthetized dogs, effects of acute right ventricular systolic hypertension on (Fixler et al.), 491
velocity in man, left ventricular, studied with Doppler ultrasonic flowmeter (Benchimol, Desser, and Gartlan), 294
pressure crisis following withdrawal of clonidine (Catapres, Catapresan), with special reference to arterial and urinary catecholamine levels, and suggestions for acute management (Hansson et al.), 605
Books received, 289, 434, 578, 721, 846
Book reviews, 146, 289, 434, 577, 719, 845
Bradykinin level in coronary sinus blood, changes in after the experimental occlusion of a coronary artery (Kimura et al.), 635
Branch block, bilateral bundle, and myocardial infarction (Riley), 144 (Letter to Editor)
Reply (Lichstein and Fenig), 144
bundle, with slowing of normal heart rate, disappearance of (Cohen and Voukydis), 727
intermittent left bundle. Study of the effects of left bundle branch block on the ECG patterns of myocardial infarction and ischemia (Luy, Bahl, and Massie), 332
left bundle, effects of on ECG patterns of myocardial infarction and ischemia. Intermittent left bundle branch block (Luy, Bahl, and Massie), 332
Bundle branch block, bilateral, and myocardial infarction (Riley), 144 (Letter to Editor)
Reply (Lichstein and Fenig), 144
intermittent left. Study of the effects of left bundle branch block on the ECG patterns of myocardial infarction and ischemia (Luy, Bahl, and Massie), 332
left, effects of on ECG patterns of myocardial infarction and ischemia. Intermittent left bundle branch block (Luy, Bahl, and Massie), 332
with slowing of normal heart rate, disappearance of (Cohen and Voukydis), 727
Bypass surgery, aortocoronary, coronary arteriovenous fistula complicating (Tabrah, Aintablian, and Hamby), 534
cardiopulmonary, ischemic myocardial injury during (Hultgren et al.), 167
Wolff-Parkinson-White, functional characteristics of. A study of six patients with His bundle electrograms (Roelandt et al.), 260

C

Calibration for indocyanine dye-dilution curves, electronic (Sullivan, Mroz, and Miller), 506

Canine orthotopic heart allografts, transvenous biopsy from (Caves et al.), 525
Cardiac arrhythmias, development of in spontaneous breathing vs. artificially respired dogs. Digitalis toxicity (Stickney and Meyers), 501
disease, medical and surgical therapy for: analysis, hypothesis, proposal. The surgical mystique and the double standard (Spodick), 579
malformations, congenital, associated with splenic anomalies, analysis of the P wave in (Blieden and Moller), 439
pacemakers. Clinical experience with 289 patients (Seremetis et al.), 739
pacing, permanent, venous thrombosis and (Friedman et al.), 531
rehabilitation: its role in evaluation and management of the patient with coronary heart disease (Zohman), 706
weakness and incoordination, clinical evidence of secured by simultaneous records of force BCG and carotid pulse derivative and interpreted by an electrical analogue (Starr, Verdouw, and Noordergraaf), 341
Cardiology, practice of, today (Burch), 291
Cardiomegaly, pulmonary edema without: ischemic cardiomyopathy and the small stiff heart (Dodek, Kassebaum, and Bristow), 281 (Annot.)
Cardiomyopathy and myocarditis following dengue and chikungunya fever: arbovirus heart disease (Obeyesekere and Hermon), 186
congestive, and mitral regurgitation, echocardiographic studies of mitral valve in patients with (Milward, McLaurin, and Craige), 413
hypertrophic obstructive, in the elderly (Tajik, Assad-Morell, and Giuliani), 574 (Letter to Editor)
Reply (Yu), 574
ischemic, and the small stiff heart: pulmonary edema without cardiomegaly (Dodek, Kassebaum, and Bristow), 281 (Annot.)
Cardiopulmonary bypass surgery, ischemic myocardial injury during (Hultgren et al.), 167
Cardiovascular disease and smoking (Rose), 838 (Annot.)
hypertensive, computer analysis of the orthogonal electrocardiogram and vectorcardiogram in 939 cases with (McCaughan, Littmann, and Pipberger), 467
maximal oxygen intake and nomographic assessment of functional aerobic impairment in (Bruce, Kusumi, and Hosmer), 546
hemodynamics of the fetal lamb, effects of maternally administered digoxin upon (Hernandez et al.), 511
Carditis of acute rheumatic fever (ARF), mechanism of mitral regurgitation in (Kalbian), 139 (Annot.)
viral, silent infections and the epidemiology of (Whitehead), 711 (Annot.)
Carotid derivative, the (Simonyi), 842 (Letter to Editor)
Reply (Spodick), 843
pulse derivative and force BCG, clinical evidence of cardiac weakness and incoordination secured by simultaneous records of and interpreted by an electrical analogue (Starr, Verdouw, and Noordergraaf), 341
Catecholamine levels, arterial and urinary, blood pressure crisis following withdrawal of clonidine (Catapres, Catapresan), with special reference to and suggestions for acute management (Hansson et al.), 605
Catheter displacement, pacemaker, electrocardiographic diagnosis of (Preston), 445
Catheterization of pulmonary veins and pulmonary venous atrium following Mustard's operation, techniques of (Berman), 94
Cell arteritis, giant—an unholy trinity (Hall), 835 (Annot.)
Cerebrovascular disease and hyperlipoproteinemia (Farid), 430 (Annot.)
Chikungunya fever and dengue, myocarditis and cardiomyopathy following: arbovirus heart disease (Obeyesekere and Hermon), 186
Chlorpropamide and diazoxide, intravenous, effects of on renal function in man (Radó et al.), 755
Cholesterol esterification, serum, in patients with coronary heart disease. Importance of initial rate of esterification expressed as a function of free cholesterol (Soloff, Rutenberg, and Lacko), 153
free, importance of initial rate of esterification expressed as a function of. Serum cholesterol esterification in patients with coronary heart disease (Soloff, Rutenberg, and Lacko), 153
Circulatory state, hyperdynamic, due to Osler-Weber-Rendu disease with intrahepatic arteriovenous fistulas (Burckhardt et al.), 797
Clinical and hemodynamic aspects of single vessel coronary artery disease (Hamby, Gupta, and Young), 458
evidence of cardiac weakness and incoordination secured by simultaneous records of force BCG and carotid pulse derivative and interpreted by an electrical analogue (Starr, Verdouw, and Noordergraaf), 341
pathologic conference (Arnott, Kearney, and Heath), 113
(Hook and Lurie), 405
(Vlodaver et al.), 689
(Gozo, Portnuff, and Levin), 801
Clonidine (Catapres, Catapresan), blood pressure crisis following withdrawal of with special reference to arterial and urinary catecholamine levels, and suggestions for acute management (Hansson et al.), 605
Complete heart block, bacterial endocarditis presenting as with paradoxical (left-to-right) pulmonary emboli (Katz, Cooper, and Frieden), 108
Computer analysis of the orthogonal electrocardiogram and vectorcardiogram in 939 cases with hypertensive cardiovascular disease (McCaughan, Littmann, and Pipberger), 467
Computing, medical, the hazards of (Healy and Fraser), 715 (Annot.)
Conducting system, A-V, and atrium, refractory period of, influence of heart rate of (Cagin et al.), 358
Conduction, A-V, in man, gap in: types I and II (Gallagher et al.), 78
defects, A-H and H-V, pseudo A-V block associated with (Eugster et al.), 789
system, atrioventricular, in heart block, the vasculature of (Kennel et al.), 593

Conductive mass inside the thorax, electrical effects of a highly (Voukydis, Angelakos, and Nelson), 382
Congenital cardiac malformations associated with splenic anomalies, analysis of the P wave in (Blieden and Moller), 439
Congestive cardiomyopathy and mitral regurgitation, echocardiographic studies of mitral valve in patients with (Milward, McLaurin, and Craige), 413
heart failure, influence of volume expansion on proximal tubular sodium reabsorption in (Bennett et al.), 55
Constrictive pericarditis and severe primary myocardial disease, systolic time intervals in (Armstrong, Lewis, and Gotsman), 6
Contraceptives, oral, and thromboembolism (Hougie), 538
coronary thrombosis in young women on (Maleki and Lange), 749
Contractility, myocardial, and peripheral vascular resistance, effects of massive doses of methylprednisolone on (Tecklenberg et al.), 216
Contrast materials, myocardial effects of (Raizner), 841 (Letter to Editor)
Reply (Kavanagh-Gray), 841
Coronary and systemic hemodynamic effects of glucagon by sotalol, modification in dogs of (Berndt et al.), 671
arteriovenous fistula complicating aortocoronary bypass surgery (Tabrah, Aintablian, and Hamby), 534
artery disease, effects of pacing on oxygen hemoglobin dissociation and oxygen carrying capacity in patients suspected of (Colvard and Longmuir), 662
single vessel, clinical and hemodynamic aspects of (Hamby, Gupta, and Young), 458
experimental occlusion of, changes in bradykinin level in coronary sinus blood after (Kimura et al.), 635
interesting peculiarities of the spatial dynamic architecture of (Burch and Giles), 140 (Annot.)
visualization, temporary repolarization abnormalities during (Maranhao et al.), 138 (Annot.)
atherosclerosis, control of hyperlipidemia in treatment and prevention of (Kayden), 422
care, prophylactic total (Stock), 814
heart disease, role of cardiac rehabilitation in evaluation and management of the patient with (Zohman), 706
serum cholesterol esterification in patients with. Importance of initial rate of esterification expressed as a function of free cholesterol (Soloff, Rutenberg, and Lacko), 153
significance of morphologic lesions (Baroldi), 1
occlusion, multiple experimental, without infarction. Effects of heart rate and vasodilation (Flameng, Schaper, and Lewi), 767
sinus blood, changes in bradykinin level in after the experimental occlusion of a coronary artery (Kimura et al.), 635
orifice in endocardial cushion defects, the location of (Yokoyama et al.), 302
thrombosis in young women on oral contraceptives: report of two cases and review of the literature (Maleki and Lange), 749
Countershock and quinidine (Lindsay), 141 (Annot.)
Cushion defects, endocardial, location of coronary sinus orifice in (Yokoyama et al.), 302
"C" wave, jugular, and diastolic intervals (Krishnamurthy), 717 (Letter to Editor)
Reply (Tavel and Bonner), 717

D

Davies' endomyocardial fibrosis and Löffler's endocarditis (Brockington and Olsen), 308
Death, sudden, fatty acids and (Opie), 575 (Letter to Editor)
Reply (Misra), 575
Deep vein leg thrombosis (White), 843 (Letter to Editor)
Reply (Browse), 843
Dehumanized science and the doctor-patient relationship (Little), 714 (Annot.)
Dengue and chikungunya fever, myocarditis and cardiomyopathy following: arbovirus heart disease (Obeyesekere and Hermon), 186
Depolarization in man, early atrial premature, atrial rhythms in response to (Paulay, Varghese, and Damato), 323
Derivative, the carotid (Simonyi), 842 (Letter to Editor)
Reply (Spodick), 843
Diagnosis and treatment of hypertension (Mroczek), 718 (Letter to Editor)
Diastolic intervals and the jugular "C" wave (Krishnamurthy), 717 (Letter to Editor)
Reply (Tavel and Bonner), 717
Diazoxide and chlorpropamide, intravenous, effects of on renal function in man (Radó et al.), 755
Digitalis toxicity. Development of cardiac arrhythmias in spontaneous breathing vs. artificially respired dogs (Stickney and Meyers), 501
Digitoxin, toxicity of (Viana, Osswald, and Rodrigues Pereira), 144 (Letter to Editor)
Reply (Solomon), 145
Digoxin concentrations, therapeutic myocardial (Coltart), 571 (Annot.)
maternally administered, effects of upon the cardiovascular hemodynamics of the fetal lamb (Hernandez et al.), 511
Displacement, pacemaker catheter, electrocardiographic diagnosis of (Preston), 445
Dissociation, atrial (Sivertssen and Jörgensen), 103 (Perosio, Suárez, and Llera), 401
oxygen hemoglobin, and oxygen carrying capacity in patients suspected of coronary artery disease, effect of pacing on (Colvard and Longmuir), 662
Diuretic(s) and moderate sodium restriction in the treatment of hypertension (Parijs et al.), 22
therapy, prolonged, total body potassium changes with (Edmonds and Jasani), 569 (Annot.)
Doctor-patient relationship, dehumanized science and the (Little), 714 (Annot.)
Dopamine in experimental myocardial infarction (Gorfinkel), 285 (Letter to Editor)
Reply (Falicov and Resnekov), 285
Doppler ultrasonic flowmeter, left ventricular blood flow velocity in man studied with (Benchimol, Desser, and Gartlan), 294
Double standard, surgical mystique and the. Controlled trials of medical and surgical therapy for cardiac disease: analysis, hypothesis, proposal (Spodick), 579

Drug therapy (for) complete heart block in acute myocardial infarction (Christiansen, Haghfelt, and Amtorp), 162
Dye-dilution curves, indocyanine, electronic calibration for (Sullivan, Mroz, and Miller), 506
Dynamic and isometric exercise as evaluated by the systolic time intervals in normal man, comparison between the effects of (Lindquist, Spangler, and Blount), 227

E

Echocardiographic studies of mitral valve in patients with congestive cardiomyopathy and mitral regurgitation (Milward, McLaurin, and Craige), 413
Ectopic tachycardia, atrial, in man, electrophysiologic demonstration of (Goldreyer, Gallagher, and Damato), 205
Edema, pulmonary, without cardiomegaly: ischemic cardiomyopathy and the small stiff heart (Dodek, Kassebaum, and Bristow), 281 (Annot.)
Ejection fractions (Graham), 843 (Letter to Editor)
Reply (Menke), 844
Elderly, hypertrophic obstructive cardiomyopathy in the (Tajik, Assad-Morell, and Giuliani), 574 (Letter to Editor)
Reply (Yu), 574
Electrical analogue, clinical evidence of cardiac weakness and incoordination secured by simultaneous records of force BCG and carotid pulse derivative and interpreted by (Starr, Verdouw, and Noordergraaf), 341
effects of a highly conductive mass inside the thorax (Voukydis, Angelakos, and Nelson), 382
impedance, transthoracic: quantitative evaluation of a non-invasive measure of thoracic fluid volume (Luepker, Michael, and Warbasse), 83
Electrocardiogram (ECG), orthogonal, and vectorcardiogram in 939 cases with hypertensive cardiovascular disease, computer analysis of (McCaughan, Littmann, and Pipberger), 467
scalar, frontal plane axis determination in, a rapid method for (Laiken et al.), 620
Electrocardiographic and biochemical changes, quantitative correlation of plasma and myocardial quinidine concentrations with (Cho), 648
diagnosis of pacemaker catheter displacement (Preston), 445
patterns of myocardial infarction and ischemia, study of effects of left bundle branch block on. Intermittent left bundle branch block (Luy, Bahl, and Massie), 332
Electrode, atrial, method of permanent transvenous implantation of an (Zucker, Parsonnet, and Gilbert), 195
Electrograms, His bundle, study of six patients with. Functional characteristics of Wolff-Parkinson-White bypass (Roelandt et al.), 260
Electronic calibration for indocyanine dye-dilution curves (Sullivan, Mroz, and Miller), 506
Electrophysiologic demonstration of atrial ectopic tachycardia in man (Goldreyer, Gallagher, and Damato), 205
Emboli, paradoxical pulmonary (left-to-right), bacterial endocarditis presenting as complete heart block with (Katz, Cooper, and Frieden), 108
Embolism, experimental pulmonary, Arvin therapy in (Sharma et al.), 72
Endocardial cushion defects, location of coronary sinus orifice in (Yokoyama et al.), 302
Endocarditis, bacterial, presenting as complete heart block with paradoxical (left-to-right) pulmonary emboli (Katz, Cooper, and Frieden), 108
Löffler's, and Davies' endomyocardial fibrosis (Brockington and Olsen), 308
Endomyocardial fibrosis, Davies', and Löffler's endocarditis (Brockington and Olsen), 308
Equilateral tetrahedral reference frame, a new symbol for (Burch), 569 (Annot.)
Esterification, initial rate of, importance of expressed as a function of free cholesterol. Serum cholesterol esterification in patients with coronary heart disease (Soloff, Rutenberg, and Lacko), 153
serum cholesterol, in patients with coronary heart disease. Importance of initial rate of esterification expressed as a function of free cholesterol (Soloff, Rutenberg, and Lacko), 153
Ethacrynic acid and furosemide, toxicity of (Cooperman and Rubin), 831
Excretion, quinidine, and therapy (Burch), 427 (Annot.)
Exercising the heart, on (Burch), 835 (Annot.)
Experimental coronary occlusion, multiple, without infarction. Effects of heart rate and vasodilation (Flameng, Schaper, and Lewi), 767
Eye and the heart, the (Schrire, Beck, and Chesler), 122

F

Failure, renal, magnesium excess in (Contiguglia, Alfrey, and Miller), 428 (Annot.)
pharmacodynamics of propranolol in (Thompson, Joekes, and Foulkes), 427 (Annot.)
Fatty acids and sudden death (Opie), 575 (Letter to Editor)
Reply (Misra), 575
Femoral vein approach, percutaneous, temporary transvenous pacing via the (Weinstein et al.), 695
Fetal lamb, effects of maternally administered digoxin upon the cardiovascular hemodynamics of (Hernandez et al.), 511
Fibrosis, Davies' endomyocardial, and Löffler's endocarditis (Brockington and Olsen), 308
Fistula(s), coronary arteriovenous, complicating aortocoronary bypass surgery (Tabrah, Aintablian, and Hamby), 534
intrahepatic arteriovenous, hyperdynamic circulatory state due to Osler-Weber-Rendu disease with (Burckhardt et al.), 797
Flowmeter, Doppler ultrasonic, left ventricular blood flow velocity in man studied with (Benchimol, Desser, and Gartlan), 294
Food, sick people's (Burch), 279 (Annot.)
Footballer's migraine (Matthews), 279 (Annot.)
Fractions, ejection (Graham), 843 (Letter to Editor)
Reply (Menke), 844
Frontal plane axis determination in scalar electrocardiograms, a rapid method for (Laiken et al.), 620

Furosemide and ethacrynic acid, toxicity of (Cooperman and Rubin), 831

G

Giant cell arteritis—an unholy trinity (Hall), 835 (Annot.)
Glucagon by sotalol, modification in dogs of the systemic and coronary hemodynamic effects of (Berndt et al.), 671
Grafts, vein, in treating ischemic heart disease, use of (Spencer), 288 (Letter to Editor)
Reply (Yokoyama), 288
Great arteries, corrected transposition of, two types of ventricular septal defect in: reference to surgical approaches (Okamura and Konno), 483

H

Hazards of medical computing, the (Healy and Fraser), 715 (Annot.)
Heart allografts, canine orthotopic, transvenous biopsy from (Caves et al.), 525
and the eye, the (Schrire, Beck, and Chesler), 122
block, complete, bacterial endocarditis presenting as with paradoxical (left-to-right) pulmonary emboli (Katz, Cooper, and Frieden), 108
in acute myocardial infarction: drug therapy (Christiansen, Haghfelt, and Amtorp), 162
the vasculature of the atrioventricular conduction system in (Kennel et al.), 593
disease, arbovirus: myocarditis and cardiomyopathy following dengue and chikungunya fever (Obeyesekere and Hermon), 186

serum cholesterol esterification in patients with. Importance of initial rate of esterification expressed as a function of free cholesterol (Soloff, Rutenberg, and Lacko), 153
significance of morphologic lesions (Baroldi), 1
ischemic, use of vein grafts in treating (Spencer), 288 (Letter to Editor)
Reply (Yokoyama), 288
failure, congestive, influence of volume expansion on proximal tubular sodium reabsorption in (Bennett et al.), 55
human, simulation of measured activation sequence in (Solomon and Selvester), 518
on exercising the (Burch), 835 (Annot.)
rate and vasodilation, effects of. Multiple experimental coronary occlusion without infarction (Flameng, Schaper, and Lewi), 767
influence of on refractory period of the atrium and A-V conducting system (Cagin et al.), 358
normal, disappearance of bundle branch block with slowing of (Cohen and Voukydis), 727
slowdown to evidence mechanical resonance oscillations of the arterial system, use of (Saumont et al.), 665
the small stiff, ischemic cardiomyopathy and: pulmonary edema without cardiomegaly (Dodek, Kassebaum, and Bristow), 281 (Annot.)
Hemodynamic and clinical aspects of single vessel coronary artery disease (Hamby, Gupta, and Young), 458
comparison of agents useful in hypertensive emergencies (Bhatia and Frohlich), 367
effects of glucagon by sotalol, modification in dogs of systemic and coronary (Berndt et al.), 671
of prostaglandin A_1 in the conscious dog, regional (Higgins, Vatner, and Braunwald), 349
regional, of beta-adrenergic blockade with propranolol in the unanesthetized primate (Nies, Evans, and Shand), 97
of the fetal lamb, cardiovascular, effects of maternally administered digoxin upon (Hernandez et al.), 511
Hemoglobin dissociation, oxygen, and oxygen carrying capacity in patients suspected of coronary artery disease, effect of pacing on (Colvard and Longmuir), 662
Hemophilus influenzae pericarditis. A report of two cases in adults with a summary of the literature (Crossley, Bigos, and Joffe), 246
Hemorrhoids, varicose veins, and deep vein thrombosis (Burkitt), 572 (Annot.)
Heparin, platelets, and venous thrombosis (O'Brien), 435
Heterotaxy, visceral, with levocardia—isolated levocardia (Liberthson et al.), 40
His bundle activity in man, antecubital vein approach for recording (Gallagher et al.), 199
electrograms, study of six patients with. Functional characteristics of Wolff-Parkinson-White bypass (Roelandt et al.), 260
H-V and A-H conduction defects, pseudo A-V block associated with (Eugster et al.), 789
Hyperdynamic circulatory state due to Osler-Weber-Rendu disease with intrahepatic arteriovenous fistulas (Burckhardt et al.), 797
Hyperlipidemia, control of in treatment and prevention of coronary atherosclerosis (Kayden), 422
Hyperlipoproteinemia and cerebrovascular disease (Farid), 430 (Annot.)
Hypertension, acute right ventricular systolic, effects of on regional myocardial blood flow in anesthetized dogs (Fixler et al.), 491
diagnosis and treatment of (Mroczek), 718 (Letter to Editor)
in the inner city, study of (McMahon, Cole, and Ryan), 65
systemic arterial, vascular reactivity in (Mendlowitz), 252
following myocardial revascularization (Estafanous et al.), 732
treatment of, moderate sodium restriction and diuretics in (Parijs et al.), 22
Hypertensive cardiovascular disease, computer analysis of the orthogonal electrocardiogram and vectorcardiogram in 939 cases with (McCaughan, Littmann, and Pipberger), 467
emergencies, hemodynamic comparison of agents useful in (Bhatia and Frohlich), 367
Hypertrophic obstructive cardiomyopathy in the elderly (Tajik, Assad-Morell, and Giuliani), 574 (Letter to Editor)
Reply (Yu), 574

Hypokalemia, hypomagnesemia, and hypo-osmolality, mechanism of the acute pressor action of (Haddy and Scott), 655
Hypomagnesemia, hypokalemia, and hypo-osmolality, mechanism of the acute pressor action of (Haddy and Scott), 655
Hypo-osmolality, hypokalemia, and hypomagnesemia, mechanism of the acute pressor action of (Haddy and Scott), 655

I

Iatrogenic atrial septal defect (Ibarra-Pérez), 842 (Letter to Editor)
Reply (Timmis), 842
Implantation of an atrial electrode, method of permanent transvenous (Zudker, Parsonnet, and Gilbert), 195
Incoordination and cardiac weakness, clinical evidence of secured by simultaneous records of force BCG and carotid pulse derivative and interpreted by an electrical analogue (Starr, Verdouw, and Noordergraaf), 341
Indocyanine dye-dilution curves, electronic calibration for (Sullivan, Mroz, and Miller), 506
Infants, symptomatic atrial septal defect in (Dimich, Steinfeld, and Park), 601
Infarction, acute myocardial, complete heart block in: drug therapy (Christiansen, Haghfelt, and Amtorp), 162
experimental myocardial, dopamine in (Gorfinkel), 285 (Letter to Editor)
Reply (Falicov and Resnekov), 285
fresh myocardial, frequency and location of in a consecutive series of autopsies. Value of the Nitro-BT method in fresh myocardial infarction (Andersen and Hansen), 611
value of Nitro-BT method in. Frequency and location of fresh myocardial infarction in a consecutive series of autopsies (Andersen and Hansen), 611
multiple experimental coronary occlusion without. Effects of heart rate and vasodilation (Flameng, Schaper, and Lewi), 767
myocardial, and bilateral bundle branch block (Riley), 144 (Letter to Editor)
Reply (Lichstein and Fenig), 144
and ischemia, ECG patterns of, study of effects of left bundle branch block on. Intermittent left bundle branch block (Luy, Bahl, and Massie), 332
race and presenting complaints in (Perkoff and Strand), 716 (Letter to Editor)
Infections, silent, and the epidemiology of viral carditis (Whitehead), 711 (Annot.)
Influence of heart rate on refractory period of the atrium and A-V conducting system (Cagin et al.), 358
Inhibition, pacemaker, by magnetic stirrers (Johnson), 433 (Letter to Editor)
Inotropic properties of an isoquinoline derivative (NC 7197) in man (Sriussadaporn and Cohn), 374
Insufficiency, aortic, ventricular septal defect with. Angiocardiographic aspects and a new classification (Tatsuno, Konno, and Sakakibara), 13
Intermittent left bundle branch block. Study of the effects of left bundle branch block on the ECG patterns of myocardial infarction and ischemia (Luy, Bahl, and Massie), 332
Intrahepatic arteriovenous fistulas, hyperdynamic circulatory state due to Osler-Weber-Rendu disease with (Burckhardt et al.), 797
Intravenous diazoxide and chlorpropamide on renal function in man, effects of (Radó et al.), 755
Ischemia and myocardial infarction, ECG patterns of, study of effects of left bundle branch block on. Intermittent left bundle branch block (Luy, Bahl, and Massie), 332
Ischemic cardiomyopathy and the small stiff heart: pulmonary edema without cardiomegaly (Dodek, Kassebaum, and Bristow), 281 (Annot.)
heart disease, use of vein grafts in treating (Spencer), 288 (Letter to Editor)
Reply (Yokoyama), 288
myocardial injury during cardiopulmonary bypass surgery (Hultgren et al.), 167
Isometric and dynamic exercise as evaluated by the systolic time intervals in normal man, comparison between the effects of (Lindquist, Spangler, and Blount), 227
Isoquinoline derivative (NC 7197) in man, inotropic properties of an (Sriussadaporn and Cohn), 374

J

Jugular "C" wave and diastolic intervals (Krishnamurthy), 717 (Letter to Editor)
Reply (Tavel and Bonner), 717

L

Leg(s), paralysis of and venous thromboembolism (Warlow, Ogston, and Douglas), 280 (Annot.)
thrombosis, deep vein (White), 843 (Letter to Editor)
Reply (Browse), 843
Lesions, morphologic, significance of: coronary heart disease (Baroldi), 1
Levocardia, isolated—levocardia with visceral heterotaxy (Liberthson et al.), 40
with visceral heterotaxy—isolated levocardia (Liberthson et al.), 40
Location of coronary sinus orifice in endocardial cushion defects, the (Yokoyama et al.), 302
Löffler's endocarditis and Davies' endomyocardial fibrosis (Brockington and Olsen), 308

M

Magnesium excess in renal failure (Contiguglia, Alfrey, and Miller), 428 (Annot.)
Magnetic stirrers, pacemaker inhibition by (Johnson), 433 (Letter to Editor)
Malformations, congenital cardiac, associated with splenic anomalies, analysis of the P wave in (Blieden and Moller), 439
Maternally administered digoxin upon the cardiovascular hemodynamics of the fetal lamb, effect of (Hernandez et al.), 511
Measured activation sequence in the human heart, simulation of (Solomon and Selvester), 518
Mechanical resonance oscillations of the arterial system, use of heart slowdown to evidence (Saumont et al.), 665
Mechanism of the acute pressor action of hypokalemia, hypomagnesemia, and hypo-osmolality (Haddy and Scott), 655

Medical and surgical therapy for cardiac disease: analysis, hypothesis, proposal. The surgical mystique and the double standard (Spodick), 579
computing, the hazards of (Healy and Fraser), 715 (Annot.)
management of angina pectoris. Medical treatment of angina pectoris IX. (Aronow), 275
treatment of angina pectoris VIII. Miscellaneous antianginal drugs (Aronow), 132

Mental mechanisms and the pain of angina pectoris (Lane), 563
Methylprednisolone, effects of massive doses of on myocardial contractility and peripheral vascular resistance (Tecklenberg et al.), 216
Middle age, management of atrial septal defect in (Robb), 837 (Annot.)
Migraine, footballer's (Matthews), 279 (Annot.)
Mitral regurgitation and congestive cardiomyopathy, echocardiographic studies of mitral valve in patients with (Milward, McLaurin, and Craige), 413
in carditis of acute rheumatic fever (ARF), mechanism of (Kalbian), 139 (Annot.)
valve, echocardiographic studies of in patients with congestive cardiomyopathy and mitral regurgitation (Milward, McLaurin, and Craige), 413
replacement in childhood. A report of 51 patients (van der Horst et al.), 624
Modification in dogs of the systemic and coronary hemodynamic effects of glucagon by sotalol (Berndt et al.), 671
Morphologic lesions, significance of: coronary heart disease (Baroldi), 1
Multiple experimental coronary occlusion without infarction. Effects of heart rate and vasodilation (Flameng, Schaper, and Lewi), 767
Mustard's operation, techniques of catheterization of pulmonary veins and pulmonary venous atrium following (Berman), 94
Myocardial biopsy, percutaneous, and pericardial biopsy with the Menghini needle (Shugoll), 35
blood flow, regional, in anesthetized dogs, effects of acute right ventricular systolic hypertension on (Fixler et al.), 491
contractility and peripheral vascular resistance, effects of massive doses of methylprednisolone on (Tecklenberg et al.), 216
digoxin concentrations, therapeutic (Coltart), 571 (Annot.)
disease, severe primary, and constrictive pericarditis, systolic time intervals in (Armstrong, Lewis, and Gotsman), 6
effects of contrast materials (Raizner), 841 (Letter to Editor)
Reply (Kavanagh-Gray), 841
infarction, acute, complete heart block in: drug therapy (Christiansen, Haghfelt, and Amtorp), 162
and bilateral bundle branch block (Riley), 144 (Letter to Editor)
Reply (Lichstein and Fenig), 144
and ischemia, ECG patterns of, study of effects of left bundle branch block on. Intermittent left bundle branch block (Luy, Bahl, and Massie), 332
Myocardial—Cont'd
experimental, dopamine in (Gorfinkel), 285 (Letter to Editor)
Reply (Falicov and Resnekov), 285
fresh, frequency and location of in a consecutive series of autopsies. Value of the Nitro-BT method in fresh myocardial infarction (Andersen and Hansen), 611
value of Nitro-BT method in. Frequency and location of fresh myocardial infarction in a consecutive series of autopsies (Andersen and Hansen), 611
race and presenting complalnts in (Perkoff and Strand), 716 (Letter to Editor)
injury, ischemic, during cardiopulmonary bypass surgery (Hultgren et al.), 167
quinidine and plasma concentrations, quantitative correlation of with biochemical and electrocardiographic changes (Cho), 648
revascularization, systemic hypertension following (Estafanous et al.), 732
Myocarditis and cardiomyopathy following dengue and chikungunya fever: arbovirus heart disease (Obeyesekere and Hermon), 186

N

New symbol for equilateral tetrahedral reference frame, a (Burch), 569 (Annot.)
Nitro-BT method in fresh myocardial infarction, value of. Frequency and location of fresh myocardial infarction in a consecutive series of autopsies (Andersen and Hansen), 611
Nomographic assessment of functional aerobic impairment in cardiovascular disease, maximal oxygen intake and (Bruce, Kusumi, and Hosmer), 546
Non-invasive measure of thoracic fluid volume, quantitative evaluation of: transthoracic electrical impedance (Luepker, Michael, and Warbasse), 83

O

Obstructive cardiomyopathy, hypertrophic, in the elderly (Tajik, Assad-Morell, and Giuliani), 574 (Letter to Editor)
Reply (Yu), 574
Occlusion, multiple experimental coronary, without infarction. Effects of heart rate and vasodilation (Flameng, Schaper, and Lewi), 767
of a coronary artery, experimental, changes in bradykinin level in coronary sinus blood after (Kimura et al.), 635
On exercising the heart (Burch), 835 (Annot.)
Oral contraceptives and thromboembolism (Hougie), 538
coronary thrombosis in young women on (Maleki and Lange), 749
Orthogonal electrocardiogram and vectorcardiogram in 939 cases with hypertensive cardiovascular disease, computer analysis of (McCaughan, Littmann, and Pipberger), 467
Orthotopic heart allografts, canine, transvenous biopsy from (Caves et al.), 525
Oscillations, mechanical resonance, of the arterial system, use of heart slowdown to evidence (Saumont et al.), 665
Osler-Weber-Rendu disease with intrahepatic arteriovenous fistulas, hyperdynamic circulatory state due to (Burckhardt et al.), 797

Oxygen carrying capacity and oxygen hemoglobin dissociation in patients suspected of coronary artery disease, effect of pacing on (Colvard and Longmuir), 662
hemoglobin dissociation and oxygen carrying capacity in patients suspected of coronary artery disease, effect of pacing on (Colvard and Longmuir), 662
intake, maximal, and nomographic assessment of functional aerobic impairment in cardiovascular disease (Bruce, Kusumi, and Hosmer), 546

P

Pacemaker(s), cardiac (Seremetis et al.), 739
catheter displacement, electrocardiographic diagnosis of (Preston), 445
inhibition by magnetic stirrers (Johnson), 433 (Letter to Editor)
Pacing on oxygen hemoglobin dissociation and oxygen carrying capacity in patients suspected of coronary artery disease, effect of (Colvard and Longmuir), 662
permanent cardiac, venous thrombosis and (Friedman et al.), 531
temporary transvenous, via the percutaneous femoral vein approach. A prospective study of 100 cases (Weinstein et al.), 695
Pain of angina pectoris, mental mechanisms and the (Lane), 563
Paralysis of the legs and venous thromboembolism (Warlow, Ogston, and Douglas), 280 (Annot.)
Percutaneous femoral vein approach, temporary transvenous pacing via the (Weinstein et al.), 695
myocardial and pericardial biopsy with the Menghini needle (Shugoll), 35
Pericardial and percutaneous myocardial biopsy with the Menghini needle (Shugoll), 35
Pericarditis, constrictive, and severe primary myocardial disease, systolic time intervals in (Armstrong, Lewis, and Gotsman), 6
Hemophilus influenzae (Crossley, Bigos, and Joffe), 246
Peripheral vascular resistance and myocardial contractility, effects of massive doses of methylprednisolone on (Tecklenberg et al.), 216
Pharmacodynamics of propranolol in renal failure (Thompson, Joekes, and Foulkes), 427 (Annot.)
Plasma and myocardial quinidine concentrations, quantitative correlation of with biochemical and electrocardiographic changes (Cho), 648
Platelets, heparin, and venous thrombosis (O'Brien), 435
Polyunsaturates, potential toxicity of excessive (Pinckney), 723
Potassium changes, total body, with prolonged diuretic therapy (Edmonds and Jasani), 569 (Annot.)
Potential toxicity of excessive polyunsaturates. Do not let the patient harm himself (Pinckney), 723
Practice of cardiology today, the (Burch), 291
Premature depolarization in man, early atrial, atrial rhythms in response to (Paulay, Varghese, and Damato), 323
ventricular beats: experimental study (Mautner and Girotti), 389
Presenting complaints and race in myocardial infarction (Perkoff and Strand), 716 (Letter to Editor)
Pressor action of hypokalemia, hypomagnesemia, and hypo-osmolality, mechanism of the acute (Haddy and Scott), 655
Pressure crisis, blood, following withdrawal of clonidine (Catapres, Catapresan), with special reference to arterial and urinary catecholamine levels, and suggestions for acute management (Hansson et al.), 605
Primary myocardial disease, severe, and constrictive pericarditis, systolic time intervals in (Armstrong, Lewis, and Gotsman), 6
Primate, unanesthetized, regional hemodynamic effects of beta-adrenergic blockade with propranolol in (Nies, Evans, and Shand), 97
Prolonged diuretic therapy, total body potassium changes with (Edmonds and Jasani), 569 (Annot.)
Prophylactic total coronary care (Stock), 814
Propranolol in renal failure, pharmacodynamics of (Thompson, Joekes, and Foulkes), 427 (Annot.)
regional hemodynamic effects of beta-adrenergic blockade with in the unanesthetized primate (Nies, Evans, and Shand), 97
Prostaglandin A_1 in the conscious dog, regional hemodynamic effects of (Higgins, Vatner, and Braunwald), 349
on several vascular beds in man, effect of (Barner et al.), 584
Pseudo A-V block associated with A-H and H-V conduction defects (Eugster et al.), 789
Pulmonary blood flow, quantification of by a radioisotope technique: validation in normal dogs, and in dogs with aortopulmonary shunts (Silove et al.), 777
edema without cardiomegaly: ischemic cardiomyopathy and the small stiff heart (Dodek, Kassebaum, and Bristow), 281 (Annot.)
emboli, paradoxical (left-to-right), bacterial endocarditis presenting as complete heart block with (Katz, Cooper, and Frieden), 108
embolism, experimental, Arvin therapy in (Sharma et al.), 72
veins and pulmonary venous atrium, catheterization of following Mustard's operation, techniques of (Berman), 94
venous atrium and pulmonary veins, catheterization of following Mustard's operation, techniques of (Berman), 94
Pulse derivative, carotid, and force BCG, clinical evidence of cardiac weakness and incoordination secured by simultaneous records of and interpreted by an electrical analogue (Starr, Verdouw, and Noordergraaf), 341
P wave in congenital cardiac malformations associated with splenic anomalies, analysis of (Blieden and Moller), 439

Q

Quantification of pulmonary blood flow by a radioisotope technique: validation in normal dogs, and in dogs with aortopulmonary shunts (Silove et al.), 777
Quantitative correlation of plasma and myocardial quinidine concentrations with biochemical and electrocardiographic changes (Cho), 648

Quinidine and countershock: a reappraisal (Lindsay), 141 (Annot.)
concentrations, myocardial, and plasma, quantitative correlation of with biochemical and electrocardiographic changes (Cho), 648
excretion and therapy (Burch), 427 (Annot.)

R

Race and presenting complaints in myocardial infarction (Perkoff and Strand), 716 (Letter to Editor)
Radioisotope technique, quantification of pulmonary blood flow by a: validation in normal dogs, and in dogs with aortopulmonary shunts (Silove et al.), 777
Reference frame, equilateral tetrahedral, a new symbol for (Burch), 569 (Annot.)
Reflux sounds, systolic venous (Abinader), 452
Refractory period of the atrium and A-V conducting system, influence of heart rate on (Cagin et al.), 358
Regional hemodynamic effects of prostaglandin A_1 in the conscious dog (Higgins, Vatner, and Braunwald), 349
myocardial blood flow in anesthetized dogs, effects of acute right ventricular systolic hypertension on (Fixler et al.), 491
Regurgitation, mitral, in carditis of acute rheumatic fever (ARF), mechanism of (Kalbian), 139 (Annot.)
Rehabilitation, cardiac: its role in evaluation and management of the patient with coronary heart disease (Zohman), 706
Renal failure, magnesium excess in (Contiguglia, Alfrey, and Miller), 428 (Annot.)
pharmacodynamics of propranolol in (Thompson, Joekes, and Foulkes), 427 (Annot.)
function in man, effects of intravenous diazoxide and chlorpropamide on (Radó et al.), 755
the measurement of (Black), 147
Repolarization abnormalities, temporary, during coronary artery visualization (Maranhao et al.), 138 (Annot.)
Resonance oscillations, mechanical, of the arterial system, use of heart slowdown to evidence (Saumont et al.), 665
Revascularization, myocardial, systemic hypertension following (Estafanous et al.), 732
Rheumatic fever, acute (ARF), mechanism of mitral regurgitation in carditis of (Kalbian), 139 (Annot.)
Rhythms, atrial, in response to an early atrial premature depolarization in man (Paulay, Varghese, and Damato), 323

S

Scalar electrocardiograms, frontal plane axis determination in, a rapid method for (Laiken et al.), 620
Science, dehumanized, and the doctor-patient relationship (Little), 714 (Annot.)
Septal defect, atrial, in middle age, management of (Robb), 837 (Annot.)
iatrogenic atrial (Ibarra-Pérez), 842 (Letter to Editor)
Reply (Timmis), 842
sinus venosus atrial (Davia, Cheitlin, and Bedynek), 177
symptomatic atrial, in infants (Dimich, Steinfeld, and Park), 601
ventricular, in corrected transposition of the great arteries, two types of: reference to surgical approaches (Okamura and Konno), 483
Septal defect, ventricular—Cont'd
with aortic insufficiency. Angiocardiographic aspects and a new classification (Tatsuno, Konno, and Sakakibara), 13
Serum cholesterol esterification in patients with coronary heart disease. Importance of initial rate of esterification expressed as a function of free cholesterol (Soloff, Rutenberg, and Lacko), 153
Sick people's food (Burch), 279 (Annot.)
Silent infections and the epidemiology of viral carditis (Whitehead), 711 (Annot.)
Single vessel coronary artery disease, clinical and hemodynamic aspects of (Hamby, Gupta, and Young), 458
Sinus orifice, coronary, location of in endocardial cushion defects (Yokoyama et al.), 302
venosus atrial septal defect: analysis of fifty cases (Davia, Cheitlin, and Bedynek), 177
Slowdown, heart, to evidence mechanical resonance oscillations of the arterial system, use of (Saumont et al.), 665
Smoking and cardiovascular disease (Rose), 838 (Annot.)
Sodium reabsorption, proximal tubular, influence of volume expansion on in congestive heart failure (Bennett et al.), 55
restriction, moderate, and diuretics in the treatment of hypertension (Parijs et al.), 22
Sotalol, modification in dogs of systemic and coronary hemodynamic effects of glucagon by (Berndt et al.), 671
Spatial dynamic architecture of the coronary arteries, interesting peculiarities of (Burch and Giles), 140 (Annot.)
Splenic anomalies, analysis of the P wave in congenital cardiac malformations associated with (Blieden and Moller), 439
Stenosis, truncal valve (Lee et al.), 397
Sudden death, fatty acids and (Opie), 575 (Letter to Editor)
Reply (Misra), 575
Surgical and medical therapy for cardiac disease: analysis, hypothesis, proposal. The surgical mystique and the double standard (Spodick), 579
mystique and the double standard, the. Controlled trials of medical and surgical therapy for cardiac disease: analysis, hypothesis, proposal (Spodick), 579
Swallowing, tachycardia caused by: mechanisms and treatment (Lindsay), 679
Symbol, a new, for equilateral tetrahedral reference frame (Burch), 569 (Annot.)
Symptomatic atrial septal defect in infants (Dimich, Steinfeld, and Park), 601
Systemic and coronary hemodynamic effects of glucagon by sotalol, modification in dogs of (Berndt et al.), 671
arterial hypertension, vascular reactivity in (Mendlowitz), 252
hypertension following myocardial revascularization (Estafanous et al.), 732
Systolic hypertension, acute right ventricular, effects of on regional myocardial blood flow in anesthetized dogs (Fixler et al.), 491
time intervals in constrictive pericarditis and severe primary myocardial disease (Armstrong, Lewis, and Gotsman), 6
in normal man, comparison between the effects of dynamic and isometric exercise as evaluated by (Lindquist, Spangler, and Blount), 227
venous reflux sounds (Abinader), 452

T

Tachyarrhythmias, recurrent ventricular, aneurysmectomy for (Welch, Fontana, and Vasko), 635
Tachycardia, atrial ectopic, in man, electrophysiologic demonstration of (Goldreyer, Gallagher, and Damato), 205
caused by swallowing: mechanisms and treatment (Lindsay), 679
Temporary transvenous pacing via the percutaneous femoral vein approach. A prospective study of 100 cases (Weinstein et al.), 695
Tetrahedral reference frame, equilateral, a new symbol for (Burch), 569 (Annot.)
Therapeutic myocardial digoxin concentrations (Coltart), 571 (Annot.)
Thoracic fluid volume, quantitative evaluation of a non-invasive measure of: transthoracic electrical impedance (Luepker, Michael, and Warbasse), 83
Thorax, electrical effects of a highly conductive mass inside the (Voukydis, Angelakos, and Nelson), 382
Thought, A (Burch), 711 (Annot.)
Thromboembolism and oral contraceptives (Hougie), 538
venous, paralysis of the legs and (Warlow, Ogston, and Douglas), 280 (Annot.)
Thrombosis, coronary, in young women on oral contraceptives (Maleki and Lange), 749
deep vein leg (White), 843 (Letter to Editor)
Reply (Browse), 843
varicose veins, and hemorrhoids (Burkitt), 572 (Annot.)
venous, and permanent cardiac pacing (Friedman et al.), 531
heparin, platelets, and (O'Brien), 435
Total body potassium changes with prolonged diuretic therapy (Edmonds and Jasani), 569 (Annot.)
coronary care, prophylactic (Stock), 814
Toxicity, digitalis. Development of cardiac arrhythmias in spontaneous breathing vs. artificially respired dogs (Stickney and Meyers), 501
of digitoxin (Viana, Osswald, and Rodrigues Pereira), 144 (Letter to Editor)
Reply (Solomon), 145
of ethacrynic acid and furosemide (Cooperman and Rubin), 831
of excessive polyunsaturates, potential (Pinckney), 723
Transposition of the great arteries, corrected, two types of ventricular septal defect in: reference to surgical approaches (Okamura and Konno), 483
Transthoracic electrical impedance: quantitative evaluation of a non-invasive measure of thoracic fluid volume (Luepker, Michael, and Warbasse), 83
Transvenous biopsy from canine orthotopic heart allografts (Caves et al.), 525
implantation of an atrial electrode, method of permanent (Zucker, Parsonnet, and Gilbert), 195
pacing via the percutaneous femoral vein approach, temporary. A prospective study of 100 cases (Weinstein et al.), 695
Treatment and diagnosis of hypertension (Mroczek), 718 (Letter to Editor)
Truncal valve stenosis (Lee et al.), 397
Tubular sodium reabsorption, proximal, influence of volume expansion on in congestive heart failure (Bennett et al.), 55

U

Ultrasonic flowmeter, Doppler, left ventricular blood flow velocity in man studied with (Benchimol, Desser, and Gartlan), 294
Urinary and arterial catecholamine levels, blood pressure crisis following withdrawal of clonidine (Catapres, Catapresan), with special reference to and suggestions for acute management (Hansson et al.), 605

V

Valsalva maneuver made actually easy, accurate (Reyes), 286 (Letter to Editor)
Reply (Hamby), 287
Valve, mitral, echocardiographic studies of in patients with congestive cardiomyopathy and mitral regurgitation (Milward, McLaurin, and Craige), 413
replacement, mitral, in childhood (van der Horst et al.), 624
stenosis, truncal (Lee et al.), 397
Varicose veins, deep vein thrombosis, and hemorrhoids (Burkitt), 572 (Annot.)
Vascular beds in man, effect of prostaglandin A_1 on several (Barner et al.), 584
reactivity in systemic arterial hypertension (Mendlowitz,) 252
resistance, peripheral, and myocardial contractility, effects of massive doses of methylprednisolone on (Tecklenberg et al.), 216
Vasculature of the atrioventricular conduction system in heart block, the (Kennel et al.), 593
Vasodilation and heart rate, effects of. Multiple experimental coronary occlusion without infarction (Flameng, Schaper, and Lewi), 767
Vectorcardiogram and orthogonal electrocardiogram in 939 cases with hypertensive cardiovascular disease, computer analysis of (McCaughan, Littmann, and Pipberger), 467
Vein approach, antecubital, for recording His bundle activity in man (Gallagher et al.), 199
percutaneous femoral, temporary transvenous pacing via the (Weinstein et al.), 695
grafts in treating ischemic heart disease, use of (Spencer), 288 (Letter to Editor)
Reply (Yokoyama), 288
leg thrombosis, deep (White), 843 (Letter to Editor)
Reply (Browse), 843
thrombosis, deep, varicose veins, and hemorrhoids (Burkitt), 572 (Annot.)
varicose, deep vein thrombosis, and hemorrhoids (Burkitt), 572 (Annot.)
Venous atrium, pulmonary, and pulmonary veins, catheterization of following Mustard's operation, techniques of (Berman), 94
reflux sounds, systolic (Abinader), 452
thromboembolism, paralysis of the legs and (Warlow, Ogston, and Douglas), 280 (Annot.)
thrombosis and permanent cardiac pacing (Friedman et al.), 531
heparin, platelets, and (O'Brien), 435
Ventricular beats, premature (Mautner and Girotti), 389
blood flow velocity in man, left, studied with Doppler ultrasonic flowmeter (Benchimol, Desser, and Gartlan), 294
septal defect in corrected transposition of the great arteries, two types of: reference to surgical approaches (Okamura and Konno), 483

Ventricular septal defect—Cont'd
with aortic insufficiency. Angiocardiographic aspects and a new classification (Tatsuno, Konno, and Sakakibara), 13
systolic hypertension, acute right, effects of on regional myocardial blood flow in anesthetized dogs (Fixler et al.), 491
tachyarrhythmias, recurrent, aneurysmectomy for (Welch, Fontana, and Vasko), 685
tunnel, aortico-left (Pérez-Martínez et al.), 237
Vessel coronary artery disease, single, clinical and hemodynamic aspects of (Hamby, Gupta, and Young), 458
Viral carditis, silent infections and the epidemiology of (Whitehead), 711 (Annot.)
Visceral heterotaxy with levocardia—isolated levocardia (Liberthson et al.), 40
Volume expansion, influence of on proximal tubular sodium reabsorption in congestive heart failure (Bennett et al.), 55

W

Wave, P, in congenital cardiac malformations associated with splenic anomalies, analysis of (Blieden and Moller), 439
Wolff-Parkinson-White bypass, functional characteristics of. A study of six patients with His bundle electrograms (Roelandt et al.), 260

Subject index*

A

Abdominal films, routine postangiography, renal abnormalities discovered by (Meneses, McCarty, and Glasser), 57

Aberration, atrial, investigation of as a cause of altered P wave contour (Probst et al.), 516

Abnormal intracardiac conduction, Charcot-Marie-Tooth disease, and Wolff-Parkinson-White syndrome (Bowers), 535

Absence, congenital, of the circumflex coronary artery. Clinical and cinearteriographic observations (Barresi et al.), 811

Acetylcholine, heart rate, and vagal stimulation on antegrade and retrograde His-Purkinje conduction in the intact heart, effect of (Varghese et al.), 203

Acknowledgment to reviewers, 719

Adrenoceptors, beta, in coronary and systemic hemodynamic responses to emotional stress in conscious dogs, role of (Bergamaschi et al.), 216

Alopecia, propranolol induced (Martin, Southwick, and Maibach), 236

Angina, action of perhexiline maleate in patients with (Morgans and Rees), 329

Announcements, 148, 430, 576, 718, 852

Anodal stimulation as a cause of pacemaker-induced ventricular fibrillation (Preston), 366

Antidepressants, tricyclic, and cardiac disease (Moir), 841 (Annot.)

Anxiety, cardiovascular events in: experimental studies in the conscious dog (Bergamaschi and Longoni), 385

Aorta, mouse, encephalomyocarditis (EMC) virus infection of the. An ultrastructural study (Burch and Harb), 669

of man, viral infection of associated with early atherosclerotic changes (Burch et al.), 523

Aortic flow pattern in both valvular mitral insufficiency and the prolapsing mitral valve syndrome, nature of: pressure-flow studies in man (Kendall, Rembert, and Greenfield), 359

Aortocoronary artery bypass surgery, complications of (Kaltman), 705

indications for (Kaltman), 420

bypass surgery, improvement of left ventricular asynergy following, related to preoperative electrocardiogram and vectorcardiogram (Jacob et al.), 438

stress electrocardiography in evaluation of (Dodek, Kassebaum, and Griswold), 292

Apexcardiogram in mitral stenosis, early systolic notch in the (Becker, Klaus, and Humphries), 582

Are patients with essential hypertension and low renin protected against stroke and heart attack? (Stroobandt, Fagard, and Amery), 781

Arrest, cardiac, a sign of (Burch), 138 (Annot.)

Arrhythmias, cardiac, and lipomatous infiltration of the myocardium, report of a case of simultaneous occurrence in association with. Cardiac lymphangioma and lipoma (Anbe and Fine), 227

mechanisms of (Pick), 249

early, following experimental coronary occlusion in conscious dogs and their modification by beta-adrenoceptor blocking drugs (Khan, Hamilton, and Manning), 347

ventricular, lidocaine in (Liss, Jeresaty, and Nakhoul), 143 (Letter to Editor)

warning, value of in the prediction of ventricular fibrillation within one hour of coronary occlusion. Experimental studies in the baboon (Bruyneel and Opie), 373

Arterial fistula, traumatic coronary (Liberthson et al.), 817

occlusion, peripheral, in patients with acute coronary heart disease (Friedman, Pandya, and Greif), 415

Arteriographic findings, coronary, in patients with axis shifts or S-T segment elevations on exercise-stress testing (Hegge, Tuna, and Burchell), 603

Arteriography, cine-coronary, progression of coronary atherosclerotic disease as assessed by (Henderson and Rowe), 165

coronary, an analysis of deaths occurring in association with (Takaro et al.), 587

percutaneous transfemoral coronary, embolic coronary artery occlusion in (de la Torre et al.), 467

transfemoral coronary, complications of and their prevention using heparin (Eyer), 428 (Annot.)

Artery bypass graft, coronary, in a community hospital, experience with (Karnegis), 51

surgery, aortocoronary complications of (Kaltman), 705

indications for (Kaltman), 420

carotid, disturbed blood flow in the: its physiological and clinical significance (Starr et al.), 644

circumflex coronary, congenital absence of the. Clinical and cinearteriographic observations (Barresi et al.), 811

internal mammary, blood flow in the (Barner), 570 (Annot.)

occlusion, embolic coronary, in percutaneous transfemoral coronary arteriography (de la Torre et al.), 467

proximal coronary, relation of microcirculatory thrombosis to thrombus in: effect of aspirin, dipyridamole, and thrombolysis (Moschos et al.), 61

Aspirin, dipyridamole, and thrombolysis, effect of: relation of microcirculatory thrombosis to thrombus in proximal coronary artery (Moschos et al.), 61

in the prevention of thrombosis (O'Brien and Butterfield), 711 (Annot.)

Aspirin-like drugs and prostaglandins (Flower), 844 (Annot.)

Assessment of human cardiac transplantation, an (Fadali and Soloff), 721

Asymptomatic electrocardiographic alterations in sarcoidosis (Stein et al.), 474

Asynergy, left ventricular, following aortocoronary bypass surgery related to preoperative electrocardiogram and vectorcardiogram, improvement of (Jacob et al.), 438

Atherosclerotic changes, early, viral infection of the aorta of man associated with (Burch et al.), 523

disease, coronary, as assessed by cine-coronary

*July, pp. 1-148; August, pp. 149-288; September, pp. 289-430; October, pp. 431-576; November, pp. 577-718; December, pp. 719-872.

Atherosclerotic—Cont'd
arteriography, progression of (Henderson and Rowe), 165

ectopic tachycardia (Mandel, Lozano, and Hayakawa), 285 (Letter to Editor)
Reply (Goldreyer), 286
electrocardiogram, right, resulting in hemopericardium (Haiat et al.), 285 (Letter to Editor)
fibrillation, chronic, and rheumatic mitral valve disease, spontaneous return of sinus rhythm in older patients with (Zimmerman, Basta, and January), 676
level, left-to-right shunt at after rupture of papillary muscle from acute myocardial infarction (Nagel, Ronan, and Roberts), 112
pacing, therapeutic uses of (Furman), 835
pressure, left, and pulmonary wedge in man, comparison of (Walston and Kendall), 159
Atrioventricular orifice (canal), common, the spectrum of (Bharati and Lev), 553
Atropine in acute myocardial infarction (Scherf), 284 (Letter to Editor)
Automatic ECG and blood pressure measurement in multitesting: correlation of blood pressure and ECG abnormalities (Hochberg et al.), 764
Automaticity of the sinus node and the AV junction, mathematical relationship between (Urthaler et al.), 189
Autonomic blockade, depression of cardiac performance by ethanol unmasked during (Wong), 508
AV junction, mathematical relationship between automaticity of the sinus node and the (Urthaler et al.), 189
junctional tachycardia, non-paroxysmal, associated with acute myocardial infarction (Fishenfeld, Desser, and Benchimol), 754
Avulsed papillary muscle tip, infection of, simulating bacterial endocarditis (Satterwhite et al.), 107
(Axial) vectorcardiogram in normal subjects, the McFee-Parungao (Copeland et al.), 42
Axis deviation, left, complete right bundle branch block with: significance of vectorcardiographic morphology (Lichstein, Chadda, and Gupta), 13
shifts or S-T segment elevations on exercise-stress testing, coronary arteriographic findings in patients with (Hegge, Tuna, and Burchell), 603

B

Back syndrome, straight. Clinical and hemodynamic study of 9 cases (Matsuo et al.), 828
Bacterial endocarditis, infection of an avulsed papillary muscle tip simulating (Satterwhite et al.), 107
Ball valve prosthesis, Cutter-Smeloff mitral, malfunction of: diagnosis by phonocardiography and echocardiography (Belenkie et al.), 399
Beta-adrenoceptor(s) blocking drugs, early arrhythmias following experimental coronary occlusion in conscious dogs and their modification by (Khan, Hamilton, and Manning), 347
in coronary and systemic hemodynamic responses to emotional stress in conscious dogs, role of (Bergamaschi et al.), 216
Bifascicular block: a clinical and electrophysiologic study (Kunstadt et al.), 173
Biological availability, a possible problem with digoxin tablets (Assistant to the Director for Medical Communications, Food and Drug Administration), 715 (Letter to Editor)
Block, bifascicular: a clinical and electrophysiologic study (Kunstadt et al.), 173
complete heart, in patients with LAD-RBBB, magnitude of risk of developing (Kulbertus), 278 (Annot.)
in the unanesthetized monkey, hemodynamic changes during (Forsyth et al.), 88
right bundle branch, with left axis deviation: significance of vectorcardiographic morphology (Lichstein, Chadda, and Gupta), 13
repetitive, Wenckebach periods with: evaluation with His bundle recording (Dhingra, Rosen, and Rahimtoola), 444
Blockade, autonomic, depression of cardiac performance by ethanol unmasked during (Wong), 508
Blocking drugs, beta-adrenoceptor, early arrhythmias following experimental coronary occlusion in conscious dogs and their modification by (Khan, Hamilton, and Manning), 347
Blood flow and oxygen consumption in normal and ischemic areas of myocardium, effect of noradrenaline on (Marshall and Parratt), 653
disturbed, in the carotid artery: its physiological and clinical significance (Starr et al.), 644
in the internal mammary artery (Barner), 570 (Annot.)
pressure and ECG abnormalities, correlation of: automatic ECG and blood pressure measurement in multitesting (Hochberg et al.), 764
measurement and automatic ECG in multitesting: correlation of blood pressure and ECG abnormalities (Hochberg et al.), 764
Books received, 288, 717, 851
Book reviews, 146, 287, 430, 575, 716, 851
Boston Collaborative Drug Surveillance Program, a report from: adverse reactions to propranolol in hospitalized medical patients (Greenblatt and Koch-Weser), 478
Branch block, complete right bundle, with left axis deviation: significance of vectorcardiographic morphology (Lichstein, Chadda, and Gupta), 13
Bundle branch block, complete right, with left axis deviation: significance of vectorcardiographic morphology (Lichstein, Chadda, and Gupta), 13
Bypass graft, coronary artery, in a community hospital, experience with (Karnegis), 51
surgery, aortocoronary artery, complications of (Kaltman), 705
indications for (Kaltman), 420
improvement of left ventricular asynergy following, related to preoperative electrocardiogram and vectorcardiogram (Jacob et al.), 438

Bypass surgery, aortocoronary—Cont'd
stress electrocardiography in evaluation of (Dodek, Kassebaum, and Griswold), 292

C

Canal, common atrioventricular orifice, the spectrum of (Bharati and Lev), 553
Canine heart, electrophysiological effects of lidocaine on distal Purkinje fibers of (Wittig, Harrison, and Wallace), 69
Cardiac arrest, a sign of (Burch), 138 (Annot.)
arrhythmia(s) and lipomatous infiltration of the myocardium, report of a case of simultaneous occurrence in association with. Cardiac lymphangioma and lipoma (Anbe and Fine), 227
mechanisms of (Pick), 249
decompensation in U.S.S.R., new approach in treatment of (Simonson and Berman), 117
disease and tricyclic antidepressants (Moir), 841 (Annot.)
injuries, nonpenetrating: a collective review (Liedtke and DeMuth), 687
lymphangioma and lipoma. Report of a case of simultaneous occurrence in association with lipomatous infiltration of the myocardium and cardiac arrhythmia (Anbe and Fine), 227
performance, depression of, by ethanol, unmasked during autonomic blockade (Wong), 508
transplantation, human, an assessment of (Fadali and Soloff), 721
Cardiology, isoproterenol in (Ahlquist), 149
Cardiomyopathy, idiopathic, immunologic findings in: a prospective serial study (Kirsner, Hess, and Fowler), 625
ischemic (Burch), 276 (Annot.)
obstructive and nonobstructive, comparative surface potential patterns in (Flowers and Horan), 196
of the left ventricle in childhood, radiological patterns of (Pernot et al.), 462
Cardiovascular events in anxiety: experimental studies in the conscious dog (Bergamaschi and Longoni), 385
Cardioversion after valve replacement (Selzer), 282 (Letter to Editor)
Reply (Jenzer and Lown), 282
Carotid artery, disturbed blood flow in the: its physiological and clinical significance (Starr et al.), 644
first derivative, determination of systolic intervals utilizing the (Nandi and Spodick), 495
Catheter displacement, pacemaker (Klein), 429 (Letter to Editor)
Reply (Preston), 429
Cell growth in man (Brook), 571 (Annot.)
Central venous pressure: physiological significance and clinical implications (Guyton and Jones), 431
Cerebrovascular accident with unusual electrocardiographic changes (Anderson, Woodburn, and Fisch), 395
Charcot-Marie-Tooth disease, Wolff-Parkinson-White syndrome, and abnormal intracardiac conduction (Bowers), 535
Childhood lipoid nephrosis, natural history of (Siegel), 139 (Annot.)
Cinearteriographic and clinical observations. Congenital absence of the circumflex coronary artery (Barresi et al.), 811
Cine-coronary arteriography, progression of coronary atherosclerotic disease as assessed by (Henderson and Rowe), 165
Circumflex coronary artery, congenital absence of the. Clinical and cinearteriographic observations (Barresi et al.), 811
Clinical diagnosis of persistent left superior vena cava by observation of jugular pulses (Horwitz et al.), 759
pathologic conference (Karachorlu, Gunnar, and Krakower), 238
(Simon et al.), 539
(Somerville et al.), 822
Clofibrate, protection against epinephrine induced myocardial necrosis with (Haft et al.), 805
Collateral inlet flow, coronary, and retrograde flow in mongrel dogs, relationship of (Cibulski, Lehan, and Hellems), 485
Common atrioventricular orifice (canal), the spectrum of (Bharati and Lev), 553
Complete heart block in patients with LAD-RBBB, magnitude of risk of developing (Kulbertus), 278 (Annot.)
Complications of aortocoronary artery bypass surgery (Kaltman), 705
of transfemoral coronary arteriography and their prevention using heparin (Eyer), 428 (Annot.)
Conduction, abnormal intracardiac, Charcot-Marie-Tooth disease, and Wolff-Parkinson-White syndrome (Bowers), 535
His-Purkinje, antegrade and retrograde in the intact heart, effect of heart rate, acetylcholine, and vagal stimulation on (Varghese et al.), 203
Congenital absence of the circumflex coronary artery. Clinical and cinearteriographic observations (Barresi et al.), 811
heart disease, critical, demography of (Kelso, Gallen, and Friedberg), 6
Congestive heart failure in infancy and concepts of developmental pharmacology I. Drug therapy of heart disease in pediatric patients (Cohen, Doyle, and Rutkowski), 133
in infants and children with digitalis preparations, treatment of II. Drug therapy of heart disease in pediatric patients (Rutkowski, Cohen, and Doyle), 270
Constrictive pericarditis, left ventricular function in systole and diastole in (Lewis and Gotsman), 23
post-systolic "dip" of, theoretic considerations of (Burch and Giles), 569 (Annot.)
Conventional leads, standard monitor leads as reliable as? (Cristal), 138 (Annot.)
Coronary and systemic hemodynamic responses to emotional stress in conscious dogs, role of beta adrenoceptors in (Bergamaschi et al.), 216
arterial fistula, traumatic (Liberthson et al.), 817
arteriographic findings in patients with axis shifts or S-T segment elevations on exercise-stress testing (Hegge, Tuna, and Burchell), 603
arteriography, an analysis of deaths occurring in association with (Takaro et al.), 587
percutaneous transfemoral, embolic coronary artery occlusion in (de la Torre et al.), 467
transfemoral, complications of and their prevention using heparin (Eyer), 428 (Annot.)
artery bypass graft in a community hospital, experience with (Karnegis), 51
circumflex, congenital absence of the. Clini-

Coronary artery—Cont'd
cal and cinearteriographic observations (Barresi et al.), 811
occlusion, embolic, in percutaneous transfemoral coronary arteriography (de la Torre et al.), 467
proximal, relation of microcirculatory thrombosis to thrombus in: effect of aspirin, dipyridamole, and thrombolysis (Moschos et al.), 61
atherosclerotic disease as assessed by cine-coronary arteriography, progression of (Henderson and Rowe), 165
collateral inlet flow and retrograde flow in mongrel dogs, relationship of (Cibulski, Lehan, and Hellems), 485
flow, regional, with increased right ventricular output in anesthetized dogs (Fixler et al.), 788
heart disease, acute, peripheral arterial occlusion in patients with (Friedman, Pandya, and Greif), 415
plasma lipids, and hemoglobin (Böttiger and Carolson), 842 (Annot.)
surgical versus medical management of (Burch), 846 (Annot.)
wide band recording of the electrocardiogram and (Langner, Geselowitz, and Briller), 308
insufficiency, dopamine test for diagnosis of (Visioli, Effendy, and Malagnino), 426 (Annot.)
occlusion, early arrhythmias following experimental in conscious dogs and their modification by beta-adrenoceptor blocking drugs (Khan, Hamilton, and Manning), 347
value of warning arrhythmias in the prediction of ventricular fibrillation within one hour of. Experimental studies in the baboon (Bruyneel and Opie), 373
vasculature in endomyocardial fibrosis and their possible significance, changes in (Andrade and Teixeira), 152
Cutter-Smeloff mitral ball valve prosthesis, malfunction of: diagnosis by phonocardiography and echocardiography (Belenkie et al.), 399
Cyclophosphamide and the treatment of the nephrotic syndrome in adults (Ogg and Cameron), 577

D

Deaths occurring in association with coronary arteriography, an analysis of (Takaro et al.), 587
sudden: identification of high risk groups (Vedin et al.), 124
Decompensation, cardiac, in U.S.S.R., new approach in treatment of (Simonson and Berman), 117
Demography of critical congenital heart disease (Kelso, Gallen, and Friedberg), 6
Depression of cardiac performance by ethanol unmasked during autonomic blockade (Wong), 508
Derivative, carotid first, determination of systolic intervals utilizing the (Nandi and Spodick), 495
Deviation, left axis, complete right bundle branch block with: significance of vectorcardiographic morphology (Lichstein, Chadda, and Gupta), 13
Diastole and systole, left ventricular function in constrictive pericarditis in (Lewis and Gotsman), 23
Dietary treatment of renal failure (David), 1
Digitalis preparations, treatment of congestive heart failure in infants and children with II. Drug therapy of heart disease in pediatric patients (Rutkowski, Cohen, and Doyle), 270
Digoxin tablets: a possible problem with biological availability (Assistant to the Director for Medical Communications, Food and Drug Administration), 715 (Letter to Editor)
"Dip," post-systolic, of constrictive pericarditis, theoretic considerations of (Burch and Giles), 569 (Annot.)
Dipyridamole, aspirin, and thrombolysis, effect of: relation of microcirculatory thrombosis to thrombus in proximal coronary artery (Moschos et al.), 61
Directional Doppler ultrasound, reciprocal movement of the right and left heart demonstrated by (Abeslon and Müller), 651
Disc variance, mitral (Harken prosthesis) (Sharma et al.), 681
Disopyramide in man, electrophysiological evaluation of (Josephson et al.), 771
Dissociation, atrial (Oriscello, Chien, and Màdàrang), 143 (Letter to Editor)
Reply (Sivertssen and Jørgensen), 144
Distress of dying, the (Rees), 141 (Annot.)
Disturbed blood flow in the carotid artery: its physiological and clinical significance (Starr et al.), 644
Dopamine test for diagnosis of coronary insufficiency (Visioli, Effendy, and Malagnino), 426 (Annot.)
Doppler ultrasound, directional, reciprocal movement of the right and left heart demonstrated by (Abelson and Müller), 651
Drug(s) abuse, multiple, effect of heroin and on the electrocardiogram (Lipski, Stimmel, and Donoso), 663
aspirin-like, and prostaglandins (Flower), 844 (Annot.)
failure in reducing pressor effect of isometric handgrip stress test in hypertension (Lamid and Wolff), 211
Surveillance Program, Boston Collaborative, a report from: adverse reactions to propranolol in hospitalized medical patients (Greenblatt and Koch-Weser), 478
therapy of heart disease in pediatric patients I. Congestive heart failure in infancy and concepts of developmental pharmacology (Cohen, Doyle, and Rutkowski), 133
II. Treatment of congestive heart failure in infants and children with digitalis preparations (Rutkowski, Cohen, and Doyle), 270
III. The therapeutic challenge of supraventricular tachyarrhythmias in infants and children (Rutkowski, Doyle, and Cohen), 562
Dye test, nitroblue-tetrazolium, and infection in the renal patient (Wollman and Miller), 277 (Annot.)
Dying, the distress of (Rees), 141 (Annot.)
Dystrophy, myotonic, electrophysiological and histological abnormalities of the heart in (Uemura et al.), 616

E

ECG abnormalities and blood pressure, correlation of: automatic ECG and blood pressure measurement in multitesting (Hochberg et al.), 764

ECG—Cont'd
and blood pressure measurement, automatic, in multitesting: correlation of blood pressure and ECG abnormalities (Hochberg et al.), 764
and vectorcardiogram in ventricular inversion (corrected transposition) (Victorica, Miller, and Gessner), 733
preoperative, improvement of left ventricular asynergy following aortocoronary bypass surgery related to (Jacob et al.), 438
effect of heroin and multiple drug abuse on (Lipski, Stimmel, and Donoso), 663
monitoring, 24-hour, transient S-T elevation detected by during normal daily activity (Golding et al.), 501
right atrial, resulting in hemopericardium (Haiat et al.), 285 (Letter to Editor)
wide band recording of and coronary heart disease (Langner, Geselowitz, and Briller), 308
Echocardiographic manifestations of valvular vegetations (Dillon et al.), 698
studies of mitral valve (Glaser), 847 (Letter to Editor)
Reply (Millward, McLaurin, and Craige), 848
Echocardiography and phonocardiography, diagnosis by: malfunction of a Cutter-Smeloff mitral ball valve prosthesis (Belenkie et al.), 399
Ectopic tachycardia, atrial (Mandel, Lozano, and Hayakawa), 285 (Letter to Editor)
Reply (Goldreyer), 286
Electrocardiographic alterations in sarcoidosis, asymptomatic (Stein et al.), 474
changes, cerebrovascular accident with unusual (Anderson, Woodburn, and Fisch), 395
findings in single ventricle and related conditions (Quero-Jiménez et al.), 449
Electrocardiography, His bundle (Fisch and Zipes), 289
stress, in evaluation of aortocoronary bypass surgery (Dodek, Kassebaum, and Griswold), 292
whither? (Butterworth and Glassman), 709 (Annot.)
Electrophysiologic study, a clinical and: bifascicular block (Kunstadt et al.), 173
Electrophysiological and histological abnormalities of the heart in myotonic dystrophy (Uemura et al.), 616
effects of lidocaine on distal Purkinje fibers of canine heart (Wittig, Harrison, and Wallace), 69
evaluation of disopyramide in man (Josephson et al.), 771
Elevation, transient S-T, detected by 24-hour ECG monitoring during normal daily activity (Golding et al.), 501
Embolic coronary artery occlusion in percutaneous transfemoral coronary arteriography (de la Torre et al.), 467
(EMC) encephalomyocarditis virus infection of the mouse aorta. An ultrastructural study (Burch and Harb), 669
Emotional stress in conscious dogs, role of beta adrenoceptors in coronary and systemic hemodynamic responses to (Bergamaschi et al.), 216
Encephalomyocarditis (EMC) virus infection of the mouse aorta. An ultrastructural study (Burch and Harb), 669
Endocarditis, bacterial, infection of an avulsed papillary muscle tip simulating (Satterwhite et al.), 107
Endomyocardial fibrosis, changes in coronary vasculature in and their possible significance (Andrade and Teixeira), 152
Enzyme levels, serum, after operation (Watkins and Lewis), 573 (Annot.)
Epinephrine induced myocardial necrosis with clofibrate, protection against (Haft et al.), 805
Essential hypertension and low renin, are patients with protected against stroke and heart attack? (Stroobandt, Fagard, and Amery), 781
Ethanol, depression of cardiac performance by, unmasked during autonomic blockade (Wong), 508
Excretion, renal, of sulfadimidine in normal and uremic subjects (Fischer), 280 (Annot.)
Exercise-stress testing, coronary arteriographic findings in patients with axis shifts or S-T segment elevations on (Hegge, Tuna, and Burchell), 603

F

Failure, congestive heart, in infants and children with digitalis preparations, treatment of II. Drug therapy of heart disease in pediatric patients (Rutkowski, Cohen, and Doyle), 270
Fetal heart, human, activation of the (Brusca and Rosettani), 79
Fibrillation, atrial, chronic, and rheumatic mitral valve disease, spontaneous return of sinus rhythm in older patients with (Zimmerman, Basta, and January), 676
ventricular, pacemaker-induced, anodal stimulation as a cause of (Preston), 366
within one hour of coronary occlusion, value of warning arrhythmias in the prediction of. Experimental studies in the baboon (Bruyneel and Opie), 373
Fibrosis, endomyocardial, changes in coronary vasculature in and their possible significance (Andrade and Teixeira), 152
First derivative, carotid, determination of systolic intervals utilizing the (Nandi and Spodick), 495
Fistula, traumatic coronary arterial (Liberthson et al.), 817
Flow, blood, and oxygen consumption in normal and ischemic areas of myocardium, effect of noradrenaline on (Marshall and Parratt), 653
in the internal mammary artery (Barner), 570 (Annot.)
coronary collateral inlet, and retrograde flow in mongrel dogs, relationship of (Cibulski, Lehan, and Hellems), 485
disturbed blood, in the carotid artery: its physiological and clinical significance (Starr et al.), 644
pattern, aortic, in both valvular mitral insufficiency and the prolapsing mitral valve syndrome, nature of: pressure-flow studies in man (Kendall, Rembert, and Greenfield), 359
regional coronary, with increased right ventricular output in anesthetized dogs (Fixler et al.), 788
retrograde, in mongrel dogs, relationship of coronary collateral inlet flow and (Cibulski, Lehan, and Hellems), 485

G

Gallop sound, left ventricular, and acute myocardial

Gallop sound—Cont'd
infarction (Riley, Russell, and Rackley), 598
Graft, coronary artery bypass, in a community hospital, experience with (Karnegis), 51

H

Handgrip stress test in hypertension, isometric, drug failure in reducing pressor effect of (Lamid and Wolff), 211
Harken prosthesis (mitral disc variance) (Sharma et al.), 681
Heart attack and stroke, are patients with essential hypertension and low renin protected against? (Stroobandt, Fagard, and Amery), 781
beat, Yogic claim of voluntary control over: an unusual demonstration (Kothari, Bordia, and Gupta), 282 (Letter to Editor)
block, complete, in patients with LAD-RBBB, magnitude of risk of developing (Kulbertus), 278 (Annot.)
in the unanesthetized monkey, hemodynamic changes during (Forsyth et al.), 88
canine, electrophysiological effects of lidocaine on distal Purkinje fibers of (Wittig, Harrison, and Wallace), 69
disease, coronary, acute, peripheral arterial occlusion in patients with (Friedman, Pandya, and Greif), 415
plasma lipids, and hemoglobin (Böttiger and Carlson), 842 (Annot.)
surgical versus medical management of (Burch), 846 (Annot.)
wide band recording of the electrocardiogram and (Langner, Geselowitz, and Briller), 308
critical congenital, demography of (Kelso, Gallen, and Friedberg), 6
in pediatric patients, drug therapy of I. Congestive heart failure in infancy and concepts of developmental pharmacology (Cohen, Doyle, and Rutkowski), 133
II. Treatment of congestive heart failure in infants and children with digitalis preparations (Rutkowski, Cohen, and Doyle), 270
III. The therapeutic challenge of supraventricular tachyarrhythmias in infants and children (Rutkowski, Doyle, and Cohen), 562
electrophysiological and histological abnormalities of the in myotonic dystrophy (Uemura et al.), 616
failure, congestive, in infancy and concepts of developmental pharmacology I. Drug therapy of heart disease in pediatric patients (Cohen, Doyle, and Rutkowski), 133
in infants and children with digitalis preparations, treatment of II. Drug therapy of heart disease in pediatric patients (Rutkowski, Cohen, and Doyle), 270
human fetal, activation of the (Brusca and Rosettani), 79
intact, effect of heart rate, acetylcholine, and vagal stimulation on antegrade and retrograde His-Purkinje conduction in the (Varghese et al.), 203
rate, acetylcholine, and vagal stimulation on antegrade and retrograde His-Purkinje conduction in the intact heart, effect of (Varghese et al.), 203
right and left, reciprocal movement of demonstrated by directional Doppler ultrasound (Abelson and Müller), 651
Heart—Cont'd
tuberculoma of. Report of 9 cases (Kapoor et al.), 334
Hemiblock, left, revisited from the histopathological viewpoint (Demoulin and Kulbertus), 712 (Annot.)
Hemodynamic and clinical study of 9 cases. Straight back syndrome (Matsuo et al.), 828
changes during complete heart block in the unanesthetized monkey (Forsyth et al.), 88
responses, systemic, to emotional stress in conscious dogs, role of beta adrenoceptors in coronary and (Bergamaschi et al.), 216
Hemoglobin, plasma lipids, and coronary heart disease (Böttiger and Carlson), 842 (Annot.)
Hemopericardium, right atrial electrocardiogram resulting in (Haiat et al.), 285 (Letter to Editor)
Heparin and venous thrombosis (Sharnoff), 849 (Letter to Editor)
Reply (O'Brien), 849
complications of transfemoral coronary arteriography and their prevention using (Eyer), 428 (Annot.)
Heroin and multiple drug abuse on the electrocardiogram, effect of (Lipski, Stimmel, and Donoso), 663
High risk groups, identification of: sudden death (Vedin et al.), 124
His bundle electrocardiography (Fisch and Zipes), 289
recording, evaluation with: Wenckebach periods with repetitive block (Dhingra, Rosen, and Rahimtoola), 444
His-Purkinje conduction, antegrade and retrograde, in the intact heart, effect of heart rate, acetylcholine, and vagal stimulation on (Varghese et al.), 203
Histological and electrophysiological abnormalities of the heart in myotonic dystrophy (Uemura et al.), 616
Histopathological viewpoint, left hemiblock revisited from the (Demoulin and Kulbertus), 712 (Annot.)
Human cardiac transplantation, an assessment of (Fadali and Soloff), 721
fetal heart, activation of the (Brusca and Rosettani), 79
Hypertension and pork (Burch), 713 (Annot.)
drug failure in reducing pressor effect of isometric handgrip stress test in (Lamid and Wolff), 211
essential, and low renin, are patients with protected against stroke and heart attack? (Stroobandt, Fagard, and Amery), 781
use of spironolactone in diagnosis and treatment of associated with mineralocorticoid excess (Beevers et al.), 404

I

Idiopathic cardiomyopathy, immunologic findings in: a prospective serial study (Kirsner, Hess, and Fowler), 625
Immunologic findings in idiopathic cardiomyopathy: a prospective serial study (Kirsner, Hess, and Fowler), 625
Infancy, congestive heart failure in and concepts of developmental pharmacology I. Drug therapy of heart disease in pediatric patients (Cohen, Doyle, and Rutkowski), 133
Infarction, myocardial, acute, atropine in (Scherf), 284 (Letter to Editor)

Infarction, myocardial, acute—Cont'd
left-to-right shunt at atrial level after rupture of papillary muscle from (Nagel, Ronan, and Roberts), 112
left ventricular gallop sound and (Riley, Russell, and Rackley), 598
non-paroxysmal A-V junctional tachycardia associated with (Fishenfeld, Desser, and Benchimol), 754
experimental, in the closed-chest dog: controlled production of large or small areas of necrosis (Cohen and Eldh), 798
Infection in the renal patient, nitroblue-tetrazolium dye test and (Wollman and Miller), 277 (Annot.)
of avulsed papillary muscle tip simulating bacterial endocarditis (Satterwhite et al.), 107
of the mouse aorta, encephalomyocarditis (EMC) virus. An ultrastructural study (Burch and Harb), 669
viral, of the aorta of man associated with early atherosclerotic changes (Burch et al.), 523
Inlet flow, coronary collateral, and retrograde flow in mongrel dogs, relationship of (Cibulski, Lehan, and Hellems), 485
Insufficiency, coronary, dopamine test for diagnosis of (Visioli, Effendy, and Malagnino), 426 (Annot.)
valvular mitral, nature of aortic flow pattern in and the prolapsing mitral valve syndrome: pressure-flow studies in man (Kendall, Rembert, and Greenfield), 359
Internal mammary artery, blood flow in the (Barner), 570 (Annot.)
Intervals, systolic, utilizing the carotid first derivative, determination of (Nandi and Spodick), 495
Intracardiac conduction, abnormal, Charcot-Marie-Tooth disease, and Wolff-Parkinson-White syndrome (Bowers), 535
Inversion, ventricular (corrected transposition), electrocardiogram and vectorcardiogram in (Victorica, Miller, and Gessner), 733
Ischemic areas of myocardium, effect of noradrenaline on blood flow and oxygen consumption in normal and (Marshall and Parratt), 653
cardiomyopathy (Burch), 276 (Annot.)
Isometric handgrip stress test in hypertension, drug failure in reducing pressor effect of (Lamid and Wolff), 211
Isoproterenol in cardiology (Ahlquist), 149

J

Jugular pulses, clinical diagnosis of persistent left superior vena cava by observation of (Horwitz et al.), 759
Junctional tachycardia, non-paroxysmal A-V, associated with acute myocardial infarction (Fishenfeld, Desser, and Benchimol), 754

L

LAD-RBBB, magnitude of risk of developing complete heart block in patients with (Kulbertus), 278 (Annot.)
Leads, conventional, standard monitor leads as reliable as? (Cristal), 138 (Annot.)
standard monitor—as reliable as conventional leads? (Cristal), 138 (Annot.)
Left axis deviation, complete right bundle branch block with: significance of vectorcardiographic morphology (Lichstein, Chadda, and Gupta), 13
Left-to-right shunt at atrial level after rupture of papillary muscle from acute myocardial infarction (Nagel, Ronan, and Roberts), 112
Level of base of the mitral valve (Brower, Krauss, and Meester), 745
Lidocaine, electrophysiological effects of on distal Purkinje fibers of canine heart (Wittig, Harrison, and Wallace), 69
in ventricular arrhythmia (Liss, Jeresaty, and Nakhoul), 143 (Letter to Editor)
Lipids, plasma, hemoglobin, and coronary heart disease (Böttiger and Carlson), 842 (Annot.)
Lipoid nephrosis, childhood, natural history of (Siegel), 139 (Annot.)
Lipoma and cardiac lymphangioma. Report of a case of simultaneous occurrence in association with lipomatous infiltration of the myocardium and cardiac arrhythmia (Anbe and Fine), 227
Lipomatous infiltration of the myocardium and cardiac arrhythmia, report of a case of simultaneous occurrence in association with. Cardiac lymphangioma and lipoma (Anbe and Fine), 227
Longevity of athletes (Sheehan), 425 (Annot.)
Lymphangioma, cardiac, and lipoma. Report of a case of simultaneous occurrence in association with lipomatous infiltration of the myocardium and cardiac arrhythmia (Anbe and Fine), 227

M

McFee-Parungao (axial) vectorcardiogram in normal subjects, the (Copeland et al.), 42
Maleate, perhexiline, action of in patients with angina (Morgans and Rees), 329
Malfunction of a Cutter-Smeloff mitral ball valve prosthesis: diagnosis by phonocardiography and echocardiography (Belenkie et al.), 399
Mammary artery, internal, blood flow in the (Barner), 570 (Annot.)
Man himself, study of (Burch), 425 (Annot.)
Mathematical relationship between automaticity of the sinus node and the AV junction (Urthaler et al.), 189
Mechanisms of cardiac arrhythmias: from hypothesis to physiologic fact (Pick), 249
Medical versus surgical management of coronary heart disease (Burch), 846 (Annot.)
Microcirculatory thrombosis, relation of to thrombus in proximal coronary artery: effect of aspirin, dipyridamole and thrombolysis (Moschos et al.), 61
Mineralocorticoid excess, use of spironolactone in diagnosis and treatment of hypertension associated with (Beevers et al.), 404
Mitral ball valve prosthesis, Cutter-Smeloff, malfunction of: diagnosis by phonocardiography and echocardiography (Belenkie et al.), 399
disc variance (Harken prosthesis) (Sharma et al.), 681
insufficiency, valvular, nature of aortic flow pattern in and the prolapsing mitral valve syndrome: pressure-flow studies in man (Kendall, Rembert, and Greenfield), 359
stenosis, early systolic notch in the apexcardiogram in (Becker, Klaus, and Humphries), 582
valve disease, rheumatic, spontaneous return of sinus rhythm in older patients with

Mitral valve—Cont'd
chronic atrial fibrillation and (Zimmerman, Basta, and January), 676
echocardiographic studies of (Glaser), 847 (Letter to Editor)
Reply (Millward, McLaurin, and Craige), 848
level of base of (Brower, Krauss, and Meester), 745
syndrome, prolapsing, nature of aortic flow pattern in both valvular mitral insufficiency and: pressure-flow studies in man (Kendall, Rembert, and Greenfield), 359
Monitor leads, standard—as reliable as conventional leads? (Cristal), 138 (Annot.)
Monkey, unanesthetized, hemodynamic changes during complete heart block in (Forsyth et al.), 88
Morphology, vectorcardiographic, significance of: complete right bundle branch block with left axis deviation (Lichstein, Chadda, and Gupta), 13
Mouse aorta, encephalomyocarditis (EMC) virus infection of the. An ultrastructural study (Burch and Harb), 669
Muscle tip, avulsed papillary, infection of, simulating bacterial endocarditis (Satterwhite et al.), 107
Myocardial infarction, acute, atropine in (Scherf), 284 (Letter to Editor)
left-to-right shunt at atrial level after rupture of papillary muscle from (Nagel, Ronan, and Roberts), 112
left ventricular gallop sound and (Riley, Russell, and Rackley), 598
non-paroxysmal A-V junctional tachycardia associated with (Fishenfeld, Desser, and Benchimol), 754
experimental, in the closed-chest dog: controlled production of large or small areas of necrosis (Cohen and Eldh), 798
necrosis with clofibrate, protection against epinephrine induced (Haft et al.), 805
scintigrams, use of radio-iodinated toluidine blue for (Carr et al.), 631
Myocardium, effect of noradrenaline on blood flow and oxygen consumption in normal and ischemic areas of (Marshall and Parratt), 653
lipomatous infiltration of and cardiac arrhythmia, report of a case of simultaneous occurrence in association with. Cardiac lymphangioma and lipoma (Anbe and Fine), 227
Myotonic dystrophy, electrophysiological and histological abnormalities of the heart in (Uemura et al.), 616

N

Natural history of childhood lipoid nephrosis (Siegel), 139 (Annot.)
Necrosis, controlled production of large or small areas of: experimental myocardial infarction in the closed-chest dog (Cohen and Eldh), 798
myocardial, with clofibrate, protection against epinephrine induced (Haft et al.), 805
Nephrosis, childhood lipoid, natural history of (Siegel), 139 (Annot.)
Nephrotic syndrome in adults, cyclophosphamide and the treatment of the (Ogg and Cameron), 577
New approach in treatment of cardiac decompensation in U.S.S.R. (Simonson and Berman), 117
Nitroblue-tetrazolium dye test and infection in the renal patient (Wollman and Miller), 277 (Annot.)
Node, sinus, and the AV junction, mathematical relationship between automaticity of the (Urthaler et al.), 189
Nonobstructive and obstructive cardiomyopathy, comparative surface potential patterns in (Flowers and Horan), 196
Non-paroxysmal A-V junctional tachycardia associated with acute myocardial infarction (Fishenfeld, Desser, and Benchimol), 754
Nonpenetrating cardiac injuries: a collective review (Liedtke and DeMuth), 687
Noradrenaline on blood flow and oxygen consumption in normal and ischemic areas of myocardium, effect of (Marshall and Parratt), 653

O

Obstructive and nonobstructive cardiomyopathy, comparative surface potential patterns in (Flowers and Horan), 196
cardiomyopathy of the left ventricle in childhood, radiological patterns of (Pernot et al.), 462
Occlusion, coronary, early arrhythmias following experimental in conscious dogs and their modification by beta-adrenoceptor blocking drugs (Khan, Hamilton, and Manning), 347
value of warning arrhythmias in the prediction of ventricular fibrillation within one hour of. Experimental studies in the baboon (Bruyneel and Opie), 373
embolic coronary artery, in percutaneous transfemoral coronary arteriography (de la Torre et al.), 467
peripheral arterial, in patients with acute coronary heart disease (Friedman, Pandya, and Greif), 415
Operation, serum enzyme levels after (Watkins and Lewis), 573 (Annot.)
Orifice, common atrioventricular (canal), the spectrum of (Bharati and Lev), 553
Oxygen consumption and blood flow in normal and ischemic areas of myocardium, effect of noradrenaline on (Marshall and Parratt), 653

P

Pacemaker catheter displacement (Klein), 429 (Letter to Editor)
Reply (Preston), 429
-induced ventricular fibrillation, anodal stimulation as a cause of (Preston), 366
Pacing, atrial, therapeutic uses of (Furman), 835
Papillary muscle, rupture of from acute myocardial infarction, left-to-right shunt at atrial level after (Nagel, Ronan, and Roberts), 112
tip, avulsed, infection of, simulating bacterial endocarditis, (Satterwhite et al.), 107
Patients with essential hypertension and low renin are protected against stroke and heart attack? (Stroobandt, Fagard, and Amery), 781
Pediatric patients, drug therapy of heart disease in I. Congestive heart failure in infancy and concepts of developmental pharmacology (Cohen, Doyle, and Rutkowski), 133
drug therapy of heart disease in II. Treatment of congestive heart failure in infants and

Pediatric patients—Cont'd
children with digitalis preparations (Rutkowski, Cohen, and Doyle), 270
drug therapy of heart disease in III. The therapeutic challenge of supraventricular tachyarrhythmias in infants and children (Rutkowski, Doyle, and Cohen), 562
Percutaneous transfomoral coronary arteriography, embolic coronary artery occlusion in (de la Torre et al.), 467
Perhexiline maleate, action of in patients with angina (Morgans and Rees), 329
Pericarditis, constrictive, left ventricular function in systole and diastole in (Lewis and Gotsman), 23
post-systolic "dip" of, theoretic considerations of (Burch and Giles), 569 (Annot.)
Peripheral arterial occlusion in patients with acute coronary heart disease (Friedman, Pandya, and Greif), 415
Pharmacology, developmental, congestive heart failure in infancy and concepts of I. Drug therapy of heart disease in pediatric patients (Cohen, Doyle, and Rutkowski), 133
Phonocardiography and echocardiography, diagnosis by: malfunction of a Cutter-Smeloff mitral ball valve prosthesis (Belenkie et al.), 399
Plasma lipids, hemoglobin, and coronary heart disease (Böttiger and Carlson), 842 (Annot.)
Pork and hypertension (Burch), 713 (Annot.)
Postangiography abdominal films, renal abnormalities discovered by routine (Meneses, McCarty, and Glasser), 57
Postpartum period and pregnancy, systolic time intervals in (Rubler, Schneebaum, and Hammer), 182
Post-systolic "dip" of constrictive pericarditis, theoretic considerations of (Burch and Giles), 569 (Annot.)
Potential patterns, comparative surface, in obstructive and nonobstructive cardiomyopathy (Flowers and Horan), 196
Practolol in treating tachyarrhythmias (Van Durme et al.), 284 (Letter to Editor)
Pregnancy and the postpartum period, systolic time intervals in (Rubler, Schneebaum, and Hammer), 182
Pressor effect of isometric handgrip stress test in hypertension, drug failure in reducing (Lamid and Wolff), 211
Pressure, blood, and ECG abnormalities, correlation of: automatic ECG and blood pressure measurement in multitesting (Hochberg et al.), 764
measurement, and automatic ECG in multitesting: correlation of blood pressure and ECG abnormalities (Hochberg et al.), 764
central venous: physiological significance and clinical implications (Guyton and Jones), 431
-flow studies in man: the nature of aortic flow pattern in both valvular mitral insufficiency and the prolapsing mitral valve syndrome (Kendall, Rembert, and Greenfield), 359
left atrial, and pulmonary wedge in man, comparison of (Walston and Kendall), 159
right ventricular systolic, in pulmonary stenosis, from combined vectorcardiographic data, prediction of (Rasmussen and Sørland), 318
Prolapsing mitral valve syndrome, nature of aortic flow pattern in both valvular mitral insufficiency and: pressure-flow studies in man (Kendall, Rembert, and Greenfield), 359
Propranolol induced alopecia (Martin, Southwick, and Maibach), 236
in hospitalized medical patients, adverse reactions to: a report from the Boston Collaborative Drug Surveillance Program (Greenblatt and Koch-Weser), 478
Prostaglandins and aspirin-like drugs (Flower), 844 (Annot.)
Prosthesis, Harken (mitral disc variance) (Sharma et al.), 681
mitral ball valve, malfunction of a Cutter-Smeloff: diagnosis by phonocardiography and echocardiography (Belenkie et al.), 399
Protection against epinephrine induced myocardial necrosis with clofibrate (Haft et al.), 805
Proximal coronary artery, relation of microcirculatory thrombosis to thrombus in: effect of aspirin, dipyridamole, and thrombolysis (Moschos et al.), 61
Pulmonary stenosis, prediction of right ventricular systolic pressure in from combined vectorcardiographic data (Rasmussen and Sørland), 318
venous drainage, total anomalous, with ventricular septal defect (Steeg, Ellis, and Gersony), 341
wedge and left atrial pressure in man, comparison of (Walston and Kendall), 159
Pulse(s), jugular, clinical diagnosis of persistent left superior vena cava by observation of (Horwitz et al.), 759
wave, volume, a theoretical approach to (Nakayama et al.), 96
Purkinje fibers of canine heart, distal, electrophysiological effects of lidocaine on (Wittig, Harrison, and Wallace), 69
P wave contour, altered, investigation of atrial aberration as a cause of (Probst et al.), 516

R

Radio-iodinated toluidine blue for myocardial scintigrams, use of (Carr et al.), 631
Radiological patterns of obstructive cardiomyopathy of the left ventricle in childhood (Pernot et al.), 462
RBBB-LAD, magnitude of risk of developing complete heart block in patients with (Kulbertus), 278 (Annot.)
Reciprocal movement of the right and left heart, demonstrated by directional Doppler ultrasound (Abelson and Müller), 651
Recording of the electrocardiogram, wide band, and coronary heart disease (Langner, Geselowitz, and Briller), 308
Regional coronary flow with increased right ventricular output in anesthetized dogs (Fixler et al.), 788
Renal abnormalities discovered by routine postangiography abdominal films (Meneses, McCarty, and Glasser), 57
excretion of sulfadimidine in normal and uremic subjects (Fischer), 280 (Annot.)
failure, dietary treatment of (David), 1
patient, nitroblue-tetrazolium dye test and infection in (Wollman and Miller), 277 (Annot.)
Renin, low, are patients with essential hypertension and protected against stroke and heart attack? (Stroobandt, Fagard, and Amery), 781

Repetitive block, Wenckebach periods with: evaluation with His bundle recording (Dhingra, Rosen, and Rahimtoola), 444
Retrograde flow in mongrel dogs, relationship of coronary collateral inlet flow and (Cibulski, Lehan, and Hellems), 485
Rheumatic mitral valve disease, spontaneous return of sinus rhythm in older patients with chronic atrial fibrillation and (Zimmerman, Basta, and January), 676
Rhythm, sinus, spontaneous return of in older patients with chronic atrial fibrillation and rheumatic mitral valve disease (Zimmerman, Basta, and January), 676
Right bundle branch block, complete, with left axis deviation: significance of vectorcardiographic morphology (Lichstein, Chadda, and Gupta), 13
Risk groups, high, identification of: sudden death (Vedin et al.), 124

S

Sarcoidosis, asymptomatic electrocardiographic alterations in (Stein et al.), 474
Scintigrams, myocardial, use of radio-iodinated toluidine blue for (Carr et al.), 631
Segment elevations, S-T, or axis shifts on exercise-stress testing, coronary arteriographic findings in patients with (Hegge, Tuna, and Burchell), 603
Septal defect, ventricular, total anomalous pulmonary venous drainage with (Steeg, Ellis, and Gersony), 341
Serum enzyme levels after operation (Watkins and Lewis), 573 (Annot.)
Shunt, left-to-right, at atrial level after rupture of papillary muscle from acute myocardial infarction (Nagel, Ronan, and Roberts), 112
Sign of cardiac arrest (Burch), 138 (Annot.)
Single ventricle and related conditions, electrocardiographic findings in (Quero-Jiménez et al.), 449
Sinus node and the AV junction, mathematical relationship between automaticity of the (Urthaler et al.), 189
rhythm, spontaneous return of in older patients with chronic atrial fibrillation and rheumatic mitral valve disease. Description of three patients (Zimmerman, Basta, and January), 676
Spectrum of common atrioventricular orifice (canal), the (Bharati and Lev), 553
Spironolactone in diagnosis and treatment of hypertension associated with mineralocorticoid excess, use of (Beevers et al.), 404
Spontaneous return of sinus rhythm in older patients with chronic atrial fibrillation and rheumatic mitral valve disease. Description of three patients (Zimmerman, Basta, and January), 676
S-T elevation, transient, detected by 24-hour ECG monitoring during normal daily activity (Golding et al.), 501
segment elevations or axis shifts on exercise-stress testing, coronary arteriographic findings in patients with (Hegge, Tuna, and Burchell), 603
Standard monitor leads—as reliable as conventional leads? (Cristal), 138 (Annot.)
Stenosis, mitral, early systolic notch in the apexcardiogram in (Becker, Klaus, and Humphries), 582
pulmonary, prediction of right ventricular systolic pressure in from combined vectorcardiographic data (Rasmussen and Sørland), 318
Stenosis—Cont'd
Stimulation, anodal, as a cause of pacemaker-induced ventricular fibrillation (Preston), 366
Straight back syndrome. Clinical and hemodynamic study of 9 cases (Matsuo et al.), 828
Stress electrocardiography in evaluation of aorto-coronary bypass surgery (Dodek, Kassebaum, and Griswold), 292
emotional, in conscious dogs, role of beta adrenoceptors in coronary and systemic hemodynamic responses to (Bergamaschi et al.), 216
test in hypertension, isometric handgrip, drug failure in reducing pressor effect of (Lamid and Wolff), 211
Stroke and heart attack, are patients with essential hypertension and low renin protected against? (Stroobandt, Fagard, and Amery), 781
Study of man himself (Burch), 425 (Annot.)
Sudden death: identification of high risk groups (Vedin et al.), 124
Sulfadimidine, renal excretion of in normal and uremic subjects (Fischer), 280 (Annot.)
Superior vena cava, persistent left, clinical diagnosis of by observation of jugular pulses (Horwitz et al.), 759
Supraventricular tachyarrhythmias in infants and children, therapeutic challenge of III. Drug therapy of heart disease in pediatric patients (Rutkowski, Doyle, and Cohen), 562
Surface potential patterns, comparative, in obstructive and nonobstructive cardiomyopathy (Flowers and Horan), 196
Surgical versus medical management of coronary heart disease (Burch), 846 (Annot.)
Systemic hemodynamic and coronary responses to emotional stress in conscious dogs, role of beta adrenoceptors in (Bergamaschi et al.), 216
Systole and diastole, left ventricular function in, in constrictive pericarditis (Lewis and Gotsman), 23
Systolic intervals utilizing the carotid first derivative, determination of (Nandi and Spodick), 495
notch, early, in the apexcardiogram in mitral stenosis (Becker, Klaus, and Humphries), 582
pressure, right ventricular, in pulmonary stenosis, from combined vectorcardiographic data, prediction of (Rasmussen and Sørland), 318
time intervals in man (Pouget and Harris), 286 (Letter to Editor)
Reply (Lindquist, Spangler, and Blount), 286
in pregnancy and the postpartum period (Rubler, Schneebaum, and Hammer), 182

T

Tachyarrhythmias, practolol in treating (Van Durme et al.), 284 (Letter to Editor)
supraventricular, in infants and children, therapeutic challenge of III. Drug therapy of heart disease in pediatric patients (Rutkowski, Doyle, and Cohen), 562
Tachycardia, atrial ectopic (Mandel, Lozano, and Hayakawa), 285 (Letter to Editor)
Reply (Goldreyer), 286

Tachycardia—Cont'd
junctional, non-paroxysmal A-V, associated with acute myocardial infarction (Fishenfeld, Desser, and Benchimol), 754
Testing, exercise-stress, coronary arteriographic findings in patients with axis shifts or S-T segment elevations on (Hegge, Tuna, and Burchell), 603
Theoretic considerations of the post-systolic "dip" of constrictive pericarditis (Burch and Giles), 569 (Annot.)
Theoretical approach to the volume pulse wave (Nakayama et al.), 96
Therapeutic challenge of supraventricular tachyarrhythmias in infants and children III. Drug therapy of heart disease in pediatric patients (Rutkowski, Doyle, and Cohen), 562
uses of atrial pacing (Furman), 835
Therapy, drug, of heart disease in pediatric patients I. Congestive heart failure in infancy and concepts of developmental pharmacology (Cohen, Doyle, and Rutkowski), 133
II. The treatment of congestive heart failure in infants and children with digitalis preparations (Rutkowski, Cohen, and Doyle), 270
III. The therapeutic challenge of supraventricular tachyarrhythmias in infants and children (Rutkowski, Doyle, and Cohen), 562
Thrombolysis, aspirin, and dipyridamole, effect of: relation of microcirculatory thrombosis to thrombus in proximal coronary artery (Moschos et al.), 61
Thrombosis, aspirin in the prevention of (O'Brien and Butterfield), 711 (Annot.)
microcirculatory, relation of to thrombus in proximal coronary artery: effect of aspirin, dipyridamole and thrombolysis (Moschos et al.), 61
venous, and heparin (Sharnoff), 849 (Letter to Editor)
Reply (O'Brien), 849
Thrombus in proximal coronary artery, relation of microcirculatory thrombosis to: effect of aspirin, dipyridamole and thrombolysis (Moschos et al.), 61
Time intervals in man, systolic (Pouget and Harris), 286 (Letter to Editor)
Reply (Lindquist, Spangler, and Blount), 286
systolic, in pregnancy and the postpartum period (Rubler, Schneebaum, and Hammer), 182
Toluidine blue, radio-iodinated, for myocardial scintigrams, use of (Carr et al.), 631
Transfemoral coronary arteriography, complications of and their prevention using heparin (Eyer), 428 (Annot.)
percutaneous, embolic coronary artery occlusion in (de la Torre et al.), 467
Transient S-T elevation detected by 24-hour ECG monitoring during normal daily activity (Golding et al.), 501
Transplantation, human cardiac, an assessment of (Fadali and Soloff), 721
Transposition, corrected—electrocardiogram and vectorcardiogram in ventricular inversion (Victorica, Miller, and Gessner), 733
Traumatic coronary arterial fistula. A case report and review of the literature (Liberthson et al.), 817
Treatment of cardiac decompensation in U.S.S.R., new approach in (Simonson and Berman), 117
Tricyclic antidepressants and cardiac disease (Moir), 841 (Annot.)
Tuberculoma of the heart. Report of 9 cases (Kapoor et al.), 334

U

Ultrasound, directional Doppler, reciprocal movement of the right and left heart demonstrated by (Abelson and Müller), 651
Ultrastructural study, an. Encephalomyocarditis (EMC) virus infection of the mouse aorta (Burch and Harb), 669
Uremic and normal subjects, renal excretion of sulfadimidine in (Fischer), 280 (Annot.)
U.S.S.R., new approach in treatment of cardiac decompensation in (Simonson and Berman), 117

V

Vagal stimulation, heart rate, and acetylcholine, on antegrade and retrograde His-Purkinje conduction in the intact heart, effect of (Varghese et al.), 203
Valve disease, rheumatic mitral, spontaneous return of sinus rhythm in older patients with chronic atrial fibrillation and (Zimmerman, Basta, and January), 676
mitral, echocardiographic studies of (Glaser), 847 (Letter to Editor)
Reply (Millward, McLaurin, and Craige), 848
level of base of (Brower, Krauss, and Meester), 745
prosthesis, ball, Cutter-Smeloff mitral, malfunction of: diagnosis by phonocardiography and echocardiography (Belenkie et al.), 399
replacement, cardioversion after (Selzer), 282 (Letter to Editor)
Reply (Jenzer and Lown), 282
syndrome, prolapsing mitral, nature of aortic flow pattern in both valvular mitral insufficiency and: pressure-flow studies in man (Kendall, Rembert, and Greenfield), 359
Valvular mitral insufficiency, nature of aortic flow pattern in and the prolapsing mitral valve syndrome: pressure-flow studies in man (Kendall, Rembert, and Greenfield), 359
vegetations, echocardiographic manifestations of (Dillon et al.), 698
Variance, mitral disc (Harken prosthesis) (Sharma et al.), 681
Vasculature, coronary, in endomyocardial fibrosis and their possible significance, changes in (Andrade and Teixeira), 152
Vectorcardiogram and electrocardiogram in ventricular inversion (corrected transposition) (Victorica, Miller, and Gessner), 733
preoperative, improvement of left ventricular asynergy following aortocoronary bypass surgery related to (Jacob et al.), 438
(axial) in normal subjects, the McFee-Parungao (Copeland et al.), 42
Vectorcardiographic data, prediction of right ventricular systolic pressure in pulmonary stenosis from combined (Rasmussen and Sørland), 318
morphology, significance of: complete right bundle branch block with left axis deviation (Lichstein, Chadda, and Gupta), 13

Vegetations, valvular, echocardiographic manifestations of (Dillon et al.), 698
Vena cava, superior, persistent left, clinical diagnosis of by observation of jugular pulses (Horwitz et al.), 759
Venous drainage, total anomalous pulmonary, with ventricular septal defect (Steeg, Ellis, and Gersony), 341
pressure, central: physiological significance and clinical implications (Guyton and Jones), 431
thrombosis and heparin (Sharnoff), 849 (Letter to Editor)
Reply (O'Brien), 849
Ventricle, left, obstructive cardiomyopathy of in childhood, radiological patterns of (Pernot et al.), 462
single, and related conditions, electrocardiographic findings in (Quero-Jiménez et al.), 449
Ventricular arrhythmia, lidocaine in (Liss, Jeresaty, and Nakhoul), 143 (Letter to Editor)
asynergy, left following aortocoronary bypass surgery related to preoperative electrocardiogram and vectorcardiogram, improvement of (Jacob et al.), 438
fibrillation, pacemaker-induced, anodal stimulation as a cause of (Preston), 366
within one hour of coronary occlusion, value of warning arrhythmias in the prediction of. Experimental studies in the baboon (Bruyneel and Opie), 373
function, left, in systole and diastole in constrictive pericarditis (Lewis and Gotsman), 23
gallop sound, left, and acute myocardial infarction (Riley, Russell, and Rackley), 598
inversion, (corrected transposition) electrocardiogram and vectorcardiogram in (Victorica, Miller, and Gessner), 733
output, increased right, in anesthetized dogs, regional coronary flow with (Fixler et al.), 788
septal defect, total anomalous pulmonary venous drainage with (Steeg, Ellis, and Gersony), 341
Ventricular—Cont'd
systolic pressure, right, in pulmonary stenosis, from combined vectorcardiographic data, prediction of (Rasmussen and Sørland), 318
Viral infection of the aorta of man associated with early atherosclerotic changes (Burch et al.), 523
Virus infection of the mouse aorta, encephalomyocarditis (EMC). An ultrastructural study (Burch and Harb), 669
Volume pulse wave, a theoretical approach to (Nakayama et al.), 96
Voluntary control over the heart beat, Yogic claim of: an unusual demonstration (Kothari, Bordia, and Gupta), 282 (Letter to Editor)

W

Warning arrhythmias, value of, in the prediction of ventricular fibrillation within one hour of coronary occlusion. Experimental studies in the baboon (Bruyneel and Opie), 373
Wave contour, altered P, investigation of atrial aberration as a cause of (Probst et al.), 516
volume pulse, a theoretical approach to (Nakayama et al.), 96
Wenckebach periods with repetitive block: evaluation with His bundle recording (Dhingra, Rosen, and Rahimtoola), 444
Whither electrocardiography? (Butterworth and Glassman), 709 (Annot.)
Wide band recording of the electrocardiogram and coronary heart disease (Langner, Geselowitz, and Briller), 308
Wolff-Parkinson-White syndrome, Charcot-Marie-Tooth disease, and abnormal intracardiac conduction (Bowers), 535

Y

Yogic claim of voluntary control over the heart beat: an unusual demonstration (Kothari, Bordia, and Gupta), 282 (Letter to Editor)
